FedEx Global Third-Party Regions

For Payers in Taiwan

Effective January 4, 2027

Overview

FedEx Global Third-Party pricing provides the rates in New Taiwan dollars for international shipments of which the freight cost is to be paid by a third party in Taiwan. It covers shipments with the air waybill indicating the 'Bill Third-Party' payment option that are from non-Taiwan origins to non-Taiwan destinations and the freight cost paid by a Taiwan customer.

How to Calculate the charges for FedEx Global Third-Party Shipments

1. For your FedEx Global Third-Party shipment, find the region for origin and destination in the tables below. The same step applies for determining origin and destination region.
2. Using the zone chart on page 3, find the origin region in the vertical listing and find the destination region in the horizontal listing. The letter listed in the intersection is your list-rate zone.
3. Determine your total shipment weight.
4. Choose the service you wish to use. For FedEx International Priority Freight and FedEx International Economy Freight, determine your service option (Door-to-Door, Door-to-Airport, Airport-to-Door, or Airport-to-Airport).
5. Find the rate for your zone, service and weight combination using the rate tables.
6. For fees and other non-transportation charges, please refer to the Surcharge and Other Information for details.

Example

For a shipment with origin country France and destination country the United States:
1. Find the regions for France and United States in the origin/ destination region chart below
   - France is region OO
   - The United States is region OA
2. Find the zone that corresponds to origin and destination regions in the zone chart on page 3.
   - Origin OO to Destination OA = Zone 3
3. The package weighs 10 kg.
4. The service is FedEx International Priority.
5. Using the rate table for FedEx International Priority at 10 kg, the rate will be TWD 20,876.
6. See the Surcharge and Other Information or contact FedEx Customer Service team for applicable fees.
