Electronic Integrated Circuit Worksheet

Do these Integrated Circuits have DRAM (Dynamic Random Access Memory) die?

☐ No - Select the appropriate classification below.
☐ Yes - Select the appropriate classification below. The **Importer** must provide a Korean DRAM Certification if countervailing duty does not apply.

Check the box below to determine the classification of the Integrated Circuit.

☐ **PROCESSOR** (May be combined with other circuits.) \textit{8542.31.0000}

☐ **CONTROLLER** (May be combined with other circuits.) \textit{8542.31.0000}

☐ **DRAM** (Dynamic Random Access Memory) or **SDRAM**. How many megabits? ___
- 0-128 megabits \textit{8542.32.0001}
- 129-256 megabits \textit{8542.32.0020}
- 257-512 megabits \textit{8542.32.0021}
- 513-1 gigabit \textit{8542.32.0022}
- Over 1 gigabit \textit{8542.32.0023}

☐ **SRAM** (Static Read Only Memory) \textit{8542.32.0040}

☐ **EEPROM** (Electronically Erasable Read Only Memory) \textit{8542.32.0050}

☐ **EPROM** (Erasable Programmable Read Only Memory) \textit{8542.32.0060}

☐ **OTHER MEMORY** (Type) \textit{8542.32.0070}

☐ **AMPLIFIERS** - \textit{8542.33.0000}

☐ **OTHER** Integrated Circuits (not listed above) \textit{8542.39.0000}

What type? ____________________________________________

Information Provided By: ____________________________________________

Name: ___________________________ Title: ____________________________
Signature: ________________________ Company: ________________________
FedEx Tracking Number: ____________________________
Part Numbers: ____________________________
