

FedEx Dangerous Goods Service

Dangerous Goods, which include a range of substances and materials, require careful and precise handling. FedEx has a team of highly-trained specialists to provide you with all necessary information to ensure that your Dangerous Goods shipment arrives safely and reliably. FedEx – IATA member – is a world leader in the shipping of Dangerous Goods and one of the few express international companies that offers an **express delivery** service to key European, North American and Asian markets.

FedEx service options

You can ship Dangerous Goods either by FedEx International Priority® (shipment up to 68kg per package) or FedEx International Priority® Freight (shipment between 68kg and 1,000kg per item). Our comprehensive Dangerous Goods service includes fast transit times, door-to-door delivery and custom clearance.

Coverage & Transit times⁽¹⁾

- **USA:** 2 days to all destinations
- **Europe:** 2 days to most of European destinations
- **Asia and Latin America:** 3 days to key business centres
- **Middle East:** Contact our Customer Service

Shipping requirements

Weight

Intra-European and Inter-Continental: maximum 1,000kg per piece.

Documents

You must use an Expanded International Air Waybill to ship Dangerous Goods, and you must also complete the Shipper's Declaration and **join 3 originals** (you cannot use manual form, it must be typed or printed).

Dry Ice

- If Dry Ice is used to refrigerate Dangerous Goods:

- Tick 'yes' on AWB for containing Dangerous Goods
- Shipper's Declaration required
- Dangerous Goods surcharge applies

- If Dry Ice is used to refrigerate non-Dangerous Goods:

- Tick 'yes' on AWB for containing Dangerous Goods
- Shipper's Declaration not required
- Dangerous Goods surcharge does not apply

Packaging

You are **responsible for the packaging, labelling and documentation** of your Dangerous Goods shipments, which must comply with IATA regulations. The following information must be provided:

- UN-number (identification number of Dangerous Goods)
- Proper shipping name
- Hazard label
- Name and address of shipper and consignee

FedEx packaging is not suitable for Dangerous Goods.

- Dry Ice packages also need to show the net weight of Dry Ice in kilos.
- It is required by IATA regulation that every Dangerous Goods shipper has followed the required Dangerous Goods training in order to be able to pack their Dangerous Goods shipments properly.

Shipping with FedEx – it's easy

- You can find additional information and assistance, including regulatory updates affecting Dangerous Goods, on the IATA web site: www.iata.org/dangerousgoods. Or you can use our **online shipping tool, FedEx® Global Trade Manager on fedex.com/gb**.
- Go to fedex.com/gb to **track your shipment in real time up to final delivery**. You can also request proof of delivery online.
- On-time express delivery of your shipment, or your money back. The money-back guarantee⁽⁴⁾ demonstrates our confidence that we will meet our delivery commitment.

(1) Transit times and delivery commitments may vary depending on origin and destination. Please contact our Customer Service for further details.

(2) Call our Customer Service for further details.

(3) Per IATA definition.

(4) FedEx money-back guarantee: full details available in our Conditions of Carriage.
