**Software Fixes Included in FedEx Ship Manager Server v 11.0.2:**

Because quality is important to you, FedEx Ship Manager Server v 11.0.2 contains resolution to several software issues. The following table lists known issues that have been corrected in v 11.0.2.

	Issues Corrected in v 11.0.2	Defect ID
1	Field 3063 does not return data in the rate/route request, only in the confirm; this is causing an issue in the customer label printing process.	195955
2	No ASTRA barcode printing on the label for FedEx Express Freight for non postal aware intra-country shippers; currently manifesting in UAE.	194322
