

FedEx Ship Manager® Server Release Notes for v 8.5.3

The following are included in this version of FedEx Ship Manager Server v 8.5.3.

- Upgrade Paths
- New Features and Enhancements since FedEx Ship Manager Server v 8.5.1
- Software Fixes Included in FedEx Ship Manager v 8.5.3

Upgrade Paths

This executable can only be used as an upgrade over previously released FedEx Ship Manager Server v 8.5.1.

New Features and Enhancements since FedEx Ship Manager Server v 8.5.3

Intra Canada Harmonized Sales Tax in Ontario and British Columbia

The Ontario and British Columbia provincial governments are introducing a Harmonized Sales Tax (HST) effective July 1, 2010. This is a mandatory change that will affect all payers for shipments to, from and within the Province of Ontario and British Columbia. This feature incorporates the move of Ontario (ON) and British Columbia (BC) from the Goods and Services Sales (GST) tax category to the HST category. For more information about this change, go to fedex.com/ca_english/news/hst.html

Field Modifications and Additions

						Labrador / New Brunswick / Ontario / Nova Scotia.
List Harmonized Sales Tax (HST)						
1937	Max=11.2	N	O	FDXE FDXG	All	Modified: CA Harmonized Sales Tax applied to Canadian shipments. HST= Percentage of net charge (not including QST), applied to FedEx shipments from any CA province (except Quebec) to British Columbia / Newfoundland-Labrador / New Brunswick / Ontario / Nova Scotia.

Software Fixes Included in FedEx Ship Manager Server v 8.5.3

FedEx Ship Manager Server v 8.5.3 contains many fixes that may be valuable to your business. The table below lists the defects that have been corrected in the FedEx Ship Manager Server v 8.5.3.

v 8.5.0	
1	When FedEx Ship Manager Server customers are using fields 57, 58, and 59 in conjunction with Package Type field 1273, but are using FedEx packaging, the rate quote will be based on the weight and FedEx package type instead of the dimensions if there is a conflict.
2	Admin Service is unresponsive during a FedEx Express rate implementation.
3	Admin Service is unresponsive during a reconcile.
4	Admin Service is unresponsive after a Close is processed.
5	Resolved a multiple occurrence field reading as end of transaction. For instance, 414-99, "" will continue to process the multiple occurrence transaction.
v 8.5.1	
6	Customer network proxy reset during upgrade from v 8.5.0 to v 8.5.1.
7	Multi-piece shipment rate quotes corrected in v 8.5.2.
8	When trying to get a Rate Quote for Future Day Shipping, an error is returned since Rates expire the day of the request. This error is no longer returned, however customer must be aware rates provided are for shipping that day only, not for Future Day shipment date.
