* For customers who have registered for the ImportOne service only. For other customers, an export fuel surcharge based on the originating country/ territory is applied on inbound shipments.

For customers who have registered for the global third-party service only. For other customers, an export fuel surcharge based on the originating country/ territory is applied on third-party shipments.

Fuel surcharge percentages and associated trigger points are subject to change without notice. See the Terms and Conditions for more details. If the fuel price equals or rises above US\$4.19 per gallon, the table above will be updated.

Changes to the FedEx Express fuel surcharges will be applied every Monday and reflected in your FedEx invoice.

The fuel surcharge percentage for FedEx Express® services is subject to weekly adjustment based on the weekly published U.S. Gulf Coast (USGC) spot price for a gallon of kerosene-type jet fuel.
