

Cambodia's economy is export oriented, led by garments, footwear, and travel goods, with policy driven diversification into higher value manufacturing, agro-processing, digital development, and sustainable energy-related sectors.

Government/Agencies	What You'll Find Here
<p>Council for the Development of Cambodia (CDC)</p> <p>https://www.cdc.gov.kh</p>	<p>The official portal of Cambodia national investment authority overseeing investment policy, approvals, and incentives. Investors can access information on the Law on Investment, Qualified Investment Projects (QIP), tax holidays, import duty and VAT exemptions, priority sectors (manufacturing, agro-processing, renewable energy, logistics, tourism), Special Economic Zones (SEZs), and Public-Private Partnership (PPP) framework.</p>
<p>Ministry of Commerce (MOC)</p> <p>https://www.moc.gov.kh/</p>	<p>Cambodia's official government portal that provides information about trade policy, business registration, commercial laws, export promotion, trade facilitation, ASEAN and bilateral FTAs, certificates of origin, and regulatory updates for import/export activities.</p>
<p>Ministry of Economy and Finance (MEF)</p> <p>https://www.mef.gov.kh</p>	<p>This is the official portal of the government body that provides access to Cambodia's macroeconomic and public finance data, fiscal policies, investment-related tax measures, and business incentives.</p>
<p>Cambodia Free Trade Agreement Portal</p> <p>https://ftaportal.moc.gov.kh/km</p>	<p>This official portal provides businesses and the public with comprehensive information on Cambodia's trade agreements, including tariffs, export requirements, and rules of origin. It is designed to help businesses understand and compare agreements, enabling them to seize international market opportunities and make informed trade decisions.</p>
<p>National Institute of Statistics (NIS)</p> <p>https://www.nis.gov.kh</p>	<p>This website serves as the official source for accessing Cambodia's statistical data, including GDP, trade, inflation, labour force data, population census, surveys, and other socio-economic indicators.</p>
