

Thailand's economy is export-driven, with strong sectors in electronics, automotive, and agriculture. The Eastern Economic Corridor (EEC) and BOI incentives support high-tech and green industries.

Government / Agencies	What You'll Find Here
<u>The Office of SMEs Promotion (OSMEP)</u>	The website provides resources, policies, and support programs for SMEs. Investors can find SME statistics, government initiatives, and business development opportunities in Thailand.
<u>Thailand Board of Investment</u>	The BOI Thailand website promotes investment in Thailand by offering incentives, regulatory guidance, and support services. Investors can find information on tax benefits, eligible industries, application procedures, and strategic investment zones like the Eastern Economic Corridor.
<u>Bank of Thailand</u>	The Bank of Thailand's Thai Economy page provides economic data, analysis, and forecasts. Investors can access insights on GDP, inflation, trade, and financial stability—key indicators for evaluating Thailand's macroeconomic environment and investment climate.
<u>Department of International Trade Promotion</u>	The DITP website supports Thai exports and international trade. Investors can find trade statistics, market opportunities, export regulations, and business matching services to explore partnerships and expand into global markets.
<u>Thai Customs</u>	Thailand Customs provides streamlined import/export procedures, duty incentives, and trade facilitation tools to support foreign investors. Services include tariff search, customs valuation, free trade area benefits, and advance rulings to ensure transparency and efficiency.
