## International Wine Shipping Basics

When shipping wine internationally, there are some basic requirements that are applicable regardless of the destination country. These basic requirements are as follows:

1. [FedEx International Air Waybill<sup>1</sup>](#): An International Air Waybill (AWB) is required for each shipment. Please refer to Pg.12 in the Appendix, which lists all the required information to be provided onto the FedEx AWB.
2. [Commercial Invoice<sup>2</sup>](#): When shipping wine to any international destination, the commercial or proforma invoice needs to be very specific. This rule applies to both personal and commercial shipments. Many countries around the world charge duties based on the type of wine and alcohol content. The following information should be clearly indicated on the commercial invoice to avoid custom clearance delays:
  - Quantity (e.g. 2 bottles)
  - Quantity measurement in litres (e.g. 750ml)
  - Producer
  - Vintage
  - Wine type where applicable (i.e. Red/White, Still/Sparkling)
  - Percentage of alcohol by volume (ABV) (e.g.13%)
  - Unit value in AUD (per bottle)
  - Total value in Australian Dollars
  - Purpose of exportation - "For Personal use" or "Gift" or "Commercial" or "Sample" as appropriate
  - For sample shipments, please indicate "samples only, not for resale" on the invoice.
3. [Additional documentation](#): When shipping to some destinations or for commercial shipments, you may be required to complete and provide additional documentation. Please refer to the country-specific requirements provided in this guide.
