

# Additional Handling Surcharges (AHS)

for non-standard FedEx shipments

Version upload date:

11 June 2025

(Updates are highlighted in orange)

# Additional Handling Surcharges (AHS)

## for non-standard FedEx packages

Larger and heavier shipments require additional resources to move effectively through our network. To account for these, additional handling charges apply.

	Surcharge	Amount	Applies to*:
PARCEL (< 68 kg)	<b>UPDATE</b> Additional Handling Surcharge – Weight**	€36/package	Packages heavier than <b>25 kg</b>
	Additional Handling Surcharge – Dimension**	€35/package	Packages exceeding one of the following: <ul style="list-style-type: none"> <li>• <b>121 cm</b> longest side</li> <li>• <b>76 cm</b> second-longest side</li> <li>• <b>266 cm</b> length + girth, where girth = 2 x width + 2 x height</li> </ul> Subject to 18 kg minimum billable weight (effective 13 January 2025)
	Additional Handling Surcharge – Packaging**	€25/package	Packages that are: <ul style="list-style-type: none"> <li>• Not fully encased in an outer container or packaging</li> <li>• Encased in an outer container or packaging not made of corrugated cardboard (including metal, wood, canvas, leather, hard plastic, soft plastic, Styrofoam™)</li> <li>• Encased in an outer container or packaging covered in shrink wrap or stretch wrap <sup>1</sup></li> <li>• Round or cylindrical (including mailing tubes, cans, buckets, barrels, tires, drums, pails)</li> <li>• Bound with metal, plastic, or cloth banding<sup>1</sup>, or having wheels (e.g., a bicycle), casters, handles, or straps, including packages where the outer surface area is loosely wrapped, or contents protrude outside the surface area</li> <li>• Prone to become entangled in or cause damage to other packages or to our sortation system</li> </ul>
	Oversize Charge	€55/package	Packages that exceed <b>243 cm</b> in length or <b>330 cm</b> in length + girth, where girth = 2 x width + 2 x height
	<b>NEW</b> Unauthorized Package Charge***	€250/package	Packages exceeding one of the following: <ul style="list-style-type: none"> <li>• <b>274 cm</b> longest side</li> <li>• <b>419 cm</b> length + girth, where girth = 2 x width + 2 x height</li> <li>• <b>68 kg</b> actual weight</li> </ul> Subject to 18 kg minimum billable weight, when the package also meets the AHS-Dimension criteria

\* Surcharge applicability depends on the surcharge definition and shipment eligibility.

\*\* There will be no change to the rating hierarchy – only the highest Additional Handling Surcharge in terms of value after discount will be applied. Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the package shape and dimensions change during transit, we may make appropriate adjustments to the charges at any time. This surcharge applies per package even if multiple packages are bundled in a shipment. If a non-standard package is eligible for two or all three AHS, only the one with highest charge (after discounts) will apply. If a package meets the criteria for both the Unauthorized Package Charge and AHS - Packaging, both surcharges will apply. We reserve the right to assess additional handling charges for packages that require special handling or that require us to apply additional packaging during transit.

\*\*\* If a shipment exceeds our maximum allowable dimensions and weight, it will not be accepted. However, should it be found in our system, the corresponding Unauthorized Charge will apply automatically.

<sup>1</sup> Please be informed that packages that are (a) shrink-wrapped and stretch-wrapped, and/or (b) have metal, plastic, or cloth banding will not be scanned for AHS-Packaging until further notice. This is to provide you ample time to explore and implement alternative packaging solutions. Nevertheless, please note that AHS-Packaging may still be charged if the package fits another criteria of a non-standard shipment. For example, a shrink-wrapped cylinder (non-cuboidal shape) or a strapped wooden crate (non-cardboard container) will still be charged for AHS-Packaging.

IMPORTANT: To avoid these surcharges, you can read more about our [packaging guidelines](#) at fedex.com. For example, Oversize Charge is applied when a package exceeds the max. dimensions and weight of a parcel. So, an Oversize Charge can be avoided if the package is shipped as freight.

# Additional Handling Surcharges (AHS)

## for non-standard FedEx freight

Larger and heavier shipments require additional resources to move effectively through our network. To account for these, additional handling charges apply.

	Surcharge*	Amount	Applies to**:
FREIGHT (> 68 kg)	Additional Handling Surcharge – Freight	€55/freight handling unit	Freight handling unit greater than <b>157 cm</b> on its longest side (For FedEx Regional Economy Freight, a maximum dimension of <b>178 cm</b> applies.)
	Additional Handling Surcharge – Non-Stackable	€200/freight handling unit	Freight handling units that cannot be stacked safely and securely Applies on a per-freight-handling-unit basis, even if multiple units are bundled in a shipment
	<b>NEW</b> Unauthorized Freight Charge***	€400/freight handling unit	Freight handling units exceeding one of the following: <ul style="list-style-type: none"> <li>• <b>302 cm</b> longest side</li> <li>• <b>762 cm</b> length + girth, where girth = 2 x width + 2 x height</li> <li>• <b>1,995 kg</b><sup>1</sup> actual weight</li> </ul>

\* If a freight handling unit attracts AHS – Freight, AHS – Non-Stackable, and Unauthorized Freight Charge, the highest surcharge (after discount) in hierarchy will apply.

\*\* Surcharge applicability depends on the surcharge definition and shipment eligibility.

\*\*\* If a shipment exceeds our maximum allowable dimensions and weight, it will not be accepted. However, should it be found in our system, the corresponding Unauthorized Charge will apply automatically.

<sup>1</sup> The global weight limit is 1,995 kg and other regions may be able to handle freight up to this weight. However, in Europe, the operational weight limit for freight is 1,000 kg, which is the maximum allowed for shipping and processing, including automation.

IMPORTANT: To avoid these surcharges, you can read more about our [packaging guidelines](#) at [fedex.com](#).

# Additional Handling Surcharges (AHS)

for non-standard FedEx packages

## AHS – Dimension

Packages that exceed standard dimensions may require manual handling, as they are not compatible with automated processes. Manual intervention may apply if a package exceeds any of the following:

- Longest side: 121 cm
- Second longest side: 76 cm
- Combined length and girth: 266 cm

### TIP:

To avoid AHS – Dimension, please refer to the packaging guidelines.

**UPDATE:** Effective 13 January 2025, packages meeting the criteria for AHS – Dimension will have a **minimum billable weight of 18 kg**.

### IMPORTANT:

If a package is subject to an Oversize Charge or AHS – Packaging and also meets the criteria for AHS – Dimension, the minimum billable weight of 18 kg will still apply. This means that this condition is enforced even if AHS – Dimension itself is not charged.

# Additional Handling Surcharges (AHS)

## for non-standard FedEx packages

### AHS – Packaging

Non-standard packages are not compatible with our standard processes and can place our equipment, personnel, and other packages at risk. They require manual intervention to avoid:

- Getting entangled in conveyors
- Jamming chutes or slides
- Breaking sort equipment
- Damaging other packages

### AHS – Weight

Our sort systems are designed for packages up to 31kg. However, to better manage the additional resources required for safely moving heavy packages, from 14 July 2025, we are lowering the threshold **to 25 kg.**

Packages over this weight require manual intervention to avoid crushing other packages or injuring employees.

To avoid AHS-Packaging, do not ship these package shapes:

✗ Not fully encased in an outer packaging

✗ Round  
✗ Cylindrical

✗ Not made of cardboard  
✗ Encased in an outer shipping container covered in shrink wrap or stretch wrap

✗ Bound with metal, plastic, or cloth banding

Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the package shape and dimensions change during transit, we may make appropriate adjustments to the charges at any time. This surcharge applies per package even if multiple packages are bundled in a shipment. If a non-standard package is eligible for two or all three AHS, only the one with highest charge will apply. We reserve the right to assess additional handling charges for packages that require special handling or that require us to apply additional packaging during transit.

IMPORTANT: To avoid these surcharges, you can read more about our [packaging guidelines](https://www.fedex.com/shipguidelines) at [fedex.com](https://www.fedex.com).

# General packaging guidelines

- Use approved FedEx or TNT packaging for FedEx or TNT package shipments only; any other use is prohibited. **(1)**
- You may use your own packaging if boxes are sturdy and undamaged with all flaps intact.
- Chipboard boxes, such as gift or shoe boxes, must be packed into a corrugated outer box.
- Use double-wall boxes for heavier items. **(2)**
- Place small packages inside a larger outer box. For Express shipments smaller than 18 cm x 10 cm x 5 cm (7" x 4" x 2"), use a FedEx or TNT packaging option. **(3)**
- Double-box fragile items with 8 cm (3") of cushioning in and around the smaller box. **(4)**
- Wrap items individually with cushioning material and center them in boxes away from other items and away from the sides, corners, top, and bottom of the box. **(5)**
- Position bottles that contain liquids upright. Use an inner seal and perforated breakaway cap. The inner packaging must be able to contain leaks. **(6)**

# How to avoid AHS - Packaging?

Surcharge criteria	Tips to avoid AHS-Packaging
<ul style="list-style-type: none"> <li>- is not fully encased in an outer shipping container or packaging;</li> <li>- is encased in an outer shipping container or packaging not made of corrugated fibreboard (cardboard) materials, including but not limited to metal, wood, canvas, leather, hard plastic, soft plastic, or expanded polystyrene foam (e.g. Styrofoam);</li> </ul>	<p><b>Place your parcel, item, or package in an outer shipping container or packaging made of corrugated fibreboard (cardboard) materials.</b> If you are using your own packaging, ensure that boxes are sturdy and undamaged with all flaps intact. You can use FedEx or TNT packaging for FedEx or TNT package shipments.</p>
<ul style="list-style-type: none"> <li>- is encased in an outer shipping container or packaging covered in shrink wrap or stretch wrap;<sup>1</sup></li> </ul>	<p><b>Properly shrink-wrap a parcel, item, or a package.</b> Shipment must be properly sealed using the H-taping method.</p> <p><b>Reminder:</b> Also, do not forget to remove old labels, and make sure the Air Waybill (AWB) label is visible, not partially or fully covered, and is on the largest surface of the package. Please note that shrink-wrapping a package can cover the label, which makes it unreadable by our scanning machines. This can also trigger a surcharge.</p>
<ul style="list-style-type: none"> <li>- is round or cylindrical, including (without limitation) mailing tubes, cans, buckets, barrels, tires, drums, or pails;</li> </ul>	<p><b>Rolled goods and cylindrical items such as carpets and pipes, as well as other irregular shaped items like drums and spools shall be packed into a suitable fibreboard (cardboard) outer shipping container or packaging.</b></p>
<ul style="list-style-type: none"> <li>- is bound with metal, plastic, or cloth banding<sup>1</sup>, or has wheels (e.g. a bicycle), casters, handles, or straps, including packages where the outer surface area is loosely wrapped, or where the contents protrude outside the surface area;</li> <li>- could become entangled in, or cause damage to other packages or our sortation system.</li> </ul>	<p><b>As much as possible, avoid wrapping your package in plastic.</b> Plastic wrap and straps may also entangle with our automated systems and can also cause unreadable labels.</p>

Please avoid shipping in package shapes as shown below.

**Important note:** Images are for reference only and is not a comprehensive list. Other packages fully or partially meeting the abovementioned criteria will be charged with AHS-Packaging, as evaluated by our Operations Team.

Irregular shapes

Wooden exterior

Tires

Exposed metal

Bubble wrap

Suitcases and transit cases

Rolled goods (i.e., carpets, pipes)

These package shapes will not trigger AHS-Packaging:

- ✓ Cardboard box
- ✓ Polybags

<sup>1</sup> Please be informed that packages that are (a) shrink-wrapped and stretch-wrapped, and/or (b) have metal, plastic, or cloth banding will not be scanned for AHS-Packaging until further notice. This is to provide you ample time to explore and implement alternative packaging solutions. Nevertheless, please note that AHS-Packaging may still be charged if the package fits another criteria of a non-standard shipment. For example, a shrink-wrapped cylinder (non-cuboidal shape) or a strapped wooden crate (non-cardboard container) will still be charged for AHS-Packaging.

# Additional Handling Surcharges (AHS)

for non-standard FedEx freight

## AHS – Non-Stackable

- Applies to any freight handling unit in a shipment that can't be stacked safely and securely
- Examples include freight handling units that:
  - 1) Do not have a flat and stable top or base
  - 2) May be damaged if another piece is loaded on them,
  - 3) Have flat and stable loading surfaces but are too narrow to safely and securely support other freight handling units (e.g. 1-2 barrels or drums)
- Applies to any freight handling unit identified by the shipper as non-stackable.
- Applies on a per-freight-handling-unit basis, even if multiple pieces are bundled in a shipment.

## Stackable pallets

Stackable pallets allow us to fully utilise our linehaul trucks.

Non-stackable pallets are not compatible with our standard processes and can place our equipment, personnel, and other shipments at risk.

## Securely stacked shipments avoid:

- Overhang that can damage your or others' goods
- Excessive movement during transit
- Unsafe working environment in our hubs and stations
- Drivers refusing pick-up due to improper stacking and packaging
- Inability to fully load our trucks

## How to avoid AHS – Non-Stackable?

### 1. Choose the right pallet

### 2. Stack in columns

### 3. Do not overhang

### 4. Keep it flat

### 5. Secure the shipment on the pallet

### 6. Avoid imperfect packaging

**IMPORTANT: Remove old labels.** For pouches, peel off the strip and seal the flap. To make sure it sticks perfectly on your shipment, we recommend you to put the label on the boxes, not on the plastic. Indicate with a label if your pallet is non-stackable in which case your shipment will incur a surcharge. The surcharge applies on a per-freight-handling-unit basis even if multiple pieces of freight are bundled in a shipment. We reserve the right to assess additional handling charges for freight handling units that require special handling or that require us to apply additional packaging during transit.

# Our network's maximum allowable dimensions and weight

- Parcels: **274cm** on the longest side, or **419cm** in length and girth, or **68 kg** in weight
- Freight: **302cm** on the longest side, or **1,995 kg\*** in weight

Unauthorized Charges will be introduced for FedEx shipments beginning **14 July 2025**.

FedEx shipments exceeding these limits may not be accepted into our network and could be refused by the driver or returned to the sender.

For shipments within these limits, dimension-based surcharges may apply, such as AHS-Dimension, Oversize Charge, or AHS-Freight.

## TIP:

For Unauthorized packages: Choose our freight services.

For Unauthorized freight: Contact [Special Services](#) to discuss available options.

\* The global weight limit is 1,995 kg and other regions may be able to handle freight up to this weight. However, in Europe, the operational weight limit for freight is 1,000 kg, which is the maximum allowed for shipping and processing, including automation.

# FedEx Unauthorized Charges

For extremely long, bulky and heavy shipments that require special handling to move through our network

**€250/package** will be applied to packages that exceed one of the following:

- Length is greater than **274cm**, OR
- Length plus girth is greater than **419cm**(girth = 2x width + 2x height), OR
- Actual weight is greater than **68kg**

**€400/freight handling unit** will be applied to freight shipments that exceed one of the following:

- Length is greater than **302cm**, OR
- Length plus girth is greater than **762cm**(girth = 2x width + 2x height), OR
- Actual weight is greater than **1,995kg\***

**IMPORTANT:** We will **not accept** items that meet this criteria, and we **may refuse** or return eligible items to the shipper. If found in our system, these items will be subject to an Unauthorized Charge. In exceptional cases and at our sole discretion, items may be accepted and delivered, in which case the applicable Unauthorized Charge will apply.

\* The global weight limit is 1,995 kg and other regions may be able to handle freight up to this weight. However, in Europe, the operational weight limit for freight is 1,000 kg, which is the maximum allowed for shipping and processing, including automation.

# Why Unauthorized Charge?

## Safety

Extremely long, bulky, and heavy items can cause damage and potentially unsafe environments in our operational locations, requiring multiple agents to handle such shipments.

## Operational efficiencies

Extremely long and bulky items require additional tools, technology and specialised equipment, such as long forks for forklifts and larger dedicated vehicles.

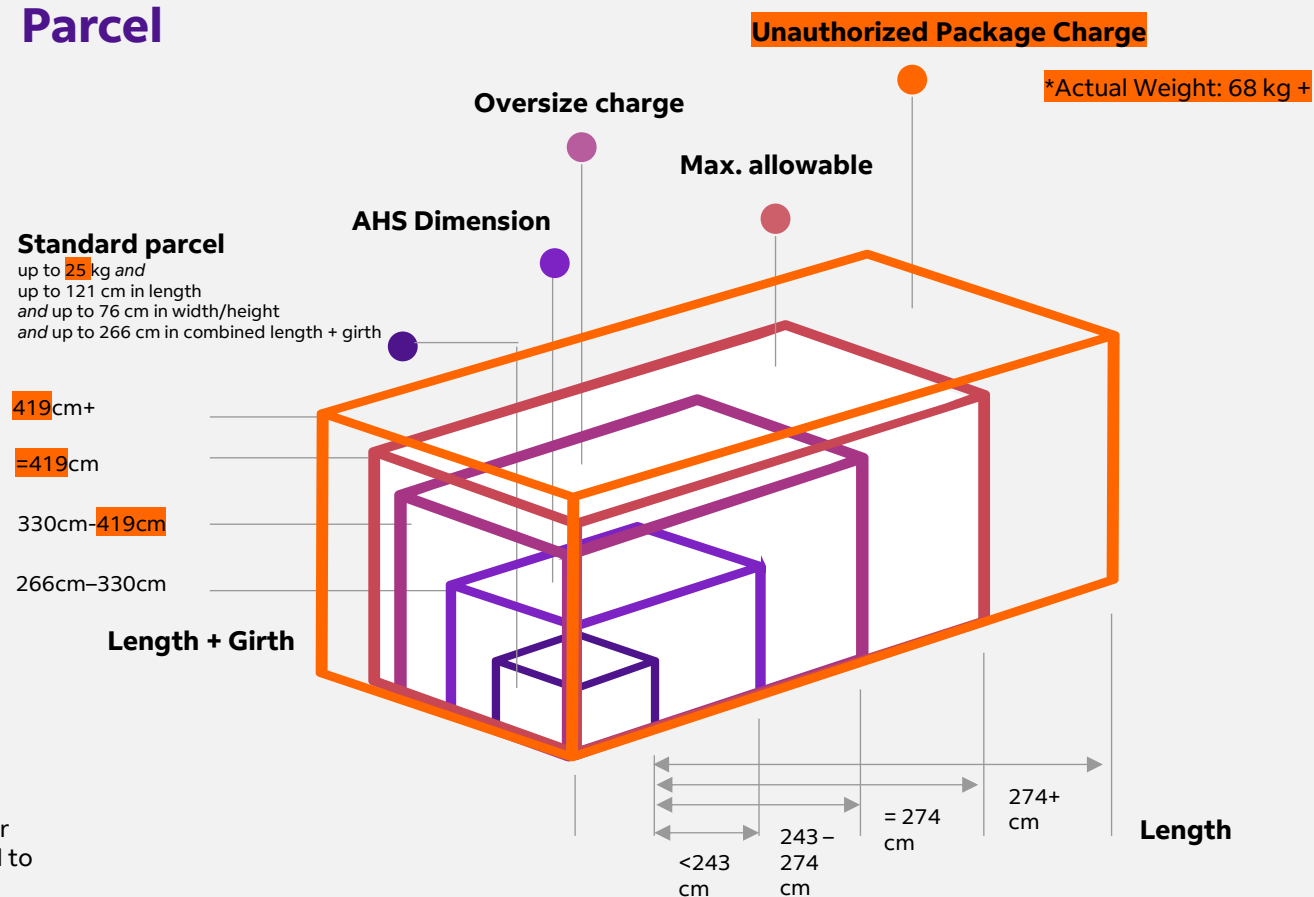

### Critical issues we encounter with Unauthorized Items:

- Our vans and trailers for pickup and delivery have maximum width of 240cm.
- Space in our trailers cannot be maximised when loading long and bulky palletised shipments.
- Unauthorized items require specialised equipment for loading.

# Our dimension-based handling surcharges

## Parcel

\*Unauthorized shipments may not be accepted into our network and could be refused by the driver or returned to the sender.

# Our dimension-based handling surcharges

## Freight

\*Unauthorized shipments may not be accepted into our network and could be refused by the driver or returned to the sender.

# How to avoid Unauthorized Charge?

**Parcels eligible for Unauthorized Package Charge** should be shipped using our freight services - on a pallet or a forkliftable container (suitable for freight) to protect the contents and allow stacking.

- Pallet box (corrugated container) providing that the cardboard can support the weight of our heaviest pallet. Otherwise, AHS Non-Stackable may apply.
- Wooden pallet box

**Freight handling units eligible for Unauthorized Freight Charge** have more limited options to avoid the charge.

## TIP:

For Unauthorized freight: Contact [Special Services](#) to discuss available options.

Operators will assess the ability of the fiberboard top to support another pallet on top.

# Frequently Asked Questions

## 1. What if multiple Additional Handling Surcharges (AHS) apply to my FedEx shipment?

**Parcel:** If a package attracts more than one Additional Handling Surcharge (Dimension, Packaging, Weight), only the highest surcharge in terms of value after discount will be applied. Oversize Charge will not be charged together with AHS-Dimension but if applicable, will always be charged in addition to AHS-Packaging or AHS-Weight. If a package attracts Unauthorized Package Charge and AHS – Packaging, both surcharges will apply.

**Freight:** AHS-Freight and AHS-Non-Stackable can be charged on the same freight handling unit.

IMPORTANT: Additional Handling Surcharges apply per package (for parcels) and per freight handling unit (for freight) even if multiple pieces of packages or freight handling units are bundled in a shipment.

\*We reserve the right to assess additional handling surcharges for shipments that require special handling or that require us to apply additional packaging during transit. Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the package shape and dimensions change during transit, we may make appropriate adjustments to the shipment surcharges at any time.

AHS - <b>Non-Stackable</b>	€200	● ●	●
Unauthorized Freight Charge	€400		● ●
Customer pays per freight handling unit:	Total cost	€255	€400
		Total €655	

Surcharges	Charge per freight handling unit	Freight handling unit 1 (Master)	Freight handling unit 2
AHS - <b>Freight</b>	€55	● ●	●
AHS - <b>Non-Stackable</b>	€200		●
Unauthorized Freight Charge	€400		● ●
Customer pays per freight handling unit:	Total cost	€55	€400
		Total €455	

NOTES: (1) If a package attracts AHS-Dimension, AHS-Packaging, and AHS-Weight, the **highest** surcharge (after discount) in hierarchy will apply. No waivers considered for AHS-Dimension. In case, you have one or more AHS waivers, the highest of the 3 AHS net surcharge amount will be charged.  
 (2) If a package attracts Unauthorized Package Charge, AHS - Dimension, and AHS - Weight, the highest surcharge (after discount) in hierarchy will apply.  
 (3) If a package attracts Unauthorized Package Charge and AHS - Packaging, both surcharges will apply.  
 (4) If a freight handling unit attracts Unauthorized Freight Charge, AHS - Freight and AHS - Non-Stackable, the highest surcharge (after discount) in hierarchy will apply.  
 (5) Oversize Charge will not be charged together with AHS - Dimension, but if applicable, will always be charged in addition to AHS-Packaging or AHS-Weight.  
 (6) AHS - Freight and AHS - Non-Stackable can be charged on the same freight handling unit.  
 (7) Freight handling unit refer to pallets, crates, freight boxes, bagged products, or transit cases within a freight shipment.

 ●● In scope of definition and surcharge(s) apply

# Frequently Asked Questions

## 2. How do I know if the surcharges apply?

You'll see the estimated surcharge in your rate quote\* (where feasible) and on your invoice. Visibility of applicable surcharges may vary depending on the automation tools you are using. FedEx invoices will not list separate AHS charges by piece. AHS amounts will be consolidated on shipment level.

For a more reliable AHS-Weight estimate during booking, you should provide the correct weight of the parcel, item, box, or package. For a more reliable AHS-Packaging estimate, when using the latest version of FedEx Ship Manager at [fedex.com](https://www.fedex.com), you need to select 'Non-standard packaging.'

## 3. What services do the surcharges apply to?

- FedEx International Priority® Express
- FedEx International Priority®
- FedEx International Priority® Freight
- FedEx International Economy®
- FedEx International Economy® Freight
- FedEx International First®
- FedEx® International Connect Plus
- FedEx® Regional Economy
- FedEx Regional Economy® Freight
- Domestic services (if available)

\*FedEx Regional Economy and Regional Economy Freight are our intra-Europe economy service and is available to selected customers only.

\*AHS package level information is only be available in the new version of FedEx Billing Online deployed in early 2024. We reserve the right to assess additional handling surcharges for packages or freight handling units that require special handling or that require us to apply additional packaging during transit. If a package is eligible for two or all three AHS, only the higher surcharge will apply. Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the package shape and dimensions change during transit, we may make appropriate adjustments to the surcharges at any time.

Questions? Please reach out to your sales representative.

# Frequently Asked Questions

## 4. What does ‘freight handling unit’ charging mean?

While a ‘package’ is one piece of a multi-piece shipment, a ‘freight handling unit’ is an individual unit requiring loading. It may refer to pallets, crates, freight boxes, bagged products, or transit cases within a freight shipment.

## 5. What are the conversion amounts?

Market	Currency	AHS Dimension	AHS Packaging	AHS Weight	Oversize Charge	Unauthorized Package Charge	AHS-Freight	AHS-Non-Stackable	Unauthorized Freight Charge
