**CUSTOMS CLEARANCE**

# How we work with you to clear goods through customs

Ship across borders with confidence by relying on our expertise to deliver an efficient clearance process.

Did you know that FedEx provides clearance services for all international shipments? Clearance can be complex but, thanks to our local specialists with long-standing customs experience, we can ensure that customs entries are accurate and compliant with regulations. We can also help with the completion of customs documentation, and calculate the payment of duties and taxes.

If the paperwork you've provided is accurate and the goods comply with regulations, then the package is cleared by the customs authorities and FedEx can usually act as the customs broker/agent.

If the goods are not compliant – or if further information is needed – our brokers and specialists will work closely with you to ensure your shipment clears customs as quickly as possible.

## How we deliver fast, reliable e-commerce

### Speedy deliveries worldwide

Impress your customers with a wide choice of premium, express and standard economy services across Europe and the world – including **FedEx® International Connect Plus**, our day-definite e-commerce delivery service.

### Convenient deliveries for your customers

**FedEx Delivery Manager®** sends your customers notifications by SMS or email – and they can customise their delivery date and location at no extra cost. They can also choose to pick up their package from one of 360,000 convenient FedEx locations worldwide.<sup>1</sup> We now provide picture proof of delivery for residential shipments released without a signature in Europe, U.S. and Canada. With visual confirmation of delivery, you know exactly where your package was left.

### Simplified returns

Our automated returns process gets goods back fast for refunds and restocking. **FedEx® Global Returns** lets your customer schedule pick-ups or drop-offs at a convenient location – with Reusable Paks helping them make simple returns.<sup>2</sup>

### Easy connectivity

Our range of e-commerce software and solutions enables fast, seamless access to FedEx shipping services. Connect your store to automatically pull order details and create shipments with **FedEx Ship Manager™**, use **FedEx APIs** to integrate FedEx solutions into your own software, or use validated third-party **FedEx® Compatible** solutions from leading software providers to enable FedEx services on your web shop.<sup>3</sup>

### Customs expertise

Cross borders seamlessly with our customs-cleared products, simple-to-use **documentation tools**, and experienced personnel around the world.

<sup>1</sup> Some FedEx locations are operated by independent third parties in cooperation with FedEx.

# Sustainability and innovation

We're committed to delivering a more sustainable future through innovative technologies and a goal of carbon-neutral operations by 2040.

Our sustainability goal	23
Innovation in action	24

We are updating our pick-up, delivery and last-mile fleets with the newest innovative technologies, including readying six facilities to support widespread use of electric vehicles.

“Our ambitious sustainability goals demonstrate how a company of our size and scale can shape a low-carbon economy, one that drives prosperity and future growth for all. At all levels of FedEx, our team is actively engaged in this transformation and working to realize our vision of a more sustainable logistics industry.”

- Raj Subramaniam, President and CEO

#### OUR SUSTAINABILITY GOAL

## How we're helping to deliver positive change

As a company that connects 99% of the world's GDP, we're taking bold steps to help the only home – and place of business – we've got.

We're heading towards a more sustainable future with a goal of carbon neutral operations by 2040.

Practical Sustainability drives us towards responsible business practices, sustainable innovation, and full transparency. We're guided by three principles: decarbonise what's possible, co-create with purpose, and neutralise what's left. That's how we're working towards carbon neutrality in our own operations and supporting the low-carbon transition of the transportation and logistics industry as a whole.

## INNOVATION IN ACTION

# Discover some of our sustainability initiatives in Europe – and around the world

## In the air

In Europe, we work closely with our feeder-aircraft operators on best practices for their pilots. Together, we've saved more than 3 million liters of jet fuel and reduced our CO2 footprint by more than 8,500 metric tonnes.

## On the ground

We continue to explore alternative energy solutions and recently began testing the hydrogen-powered Renault Master Van H2-TECH in Utrecht, Netherlands — our first use of hydrogen technology in Europe.

## In our facilities

Our newest road hub in Novara, Italy, has earned the prestigious LEED Gold certification for sustainability and energy efficiency. It's a prime example of our ongoing efforts to integrate green practices into our operations.

## Helping you to understand and report on your emissions

You can access information on the emissions from the transport of your packages, enabling you to make smarter decisions regarding service selection, track progress towards emissions reduction goals, and more.
