CUSTOMS CLEARANCE

How we work with you to clear goods through customs

Ship across borders with confidence by relying on our expertise to deliver an efficient clearance process.

Did you know that FedEx provides clearance services for all international shipments? Clearance can be complex but, thanks to our local specialists with long-standing customs experience, we can ensure that customs entries are accurate and compliant with regulations. We can also help with the completion of customs documentation, and calculate the payment of duties and taxes.

If the paperwork you've provided is accurate and the goods comply with regulations, then the package is cleared by the customs authorities and FedEx can usually act as the customs broker/agent.

If the goods are not compliant – or if further information is needed – our brokers and specialists will work closely with you to ensure your shipment clears customs as quickly as possible.

How we deliver fast, reliable e-commerce

Speedy deliveries worldwide

Impress your customers with a wide choice of premium, express and standard economy services across Europe and the world – including **FedEx® International Connect Plus**, our day-definite e-commerce delivery service.

Convenient deliveries for your customers

FedEx Delivery Manager® sends your customers notifications by SMS or email – and they can customise their delivery date and location at no extra cost. They can also choose to pick up their package from one of 360,000 convenient FedEx locations worldwide.¹ We now provide picture proof of delivery for residential shipments released without a signature in Europe, U.S. and Canada. With visual confirmation of delivery, you know exactly where your package was left.

Simplified returns

Our automated returns process gets goods back fast for refunds and restocking. **FedEx® Global Returns** lets your customer schedule pick-ups or drop-offs at a convenient location – with Reusable Paks helping them make simple returns.²

Easy connectivity

Our range of e-commerce software and solutions enables fast, seamless access to FedEx shipping services. Connect your store to automatically pull order details and create shipments with **FedEx Ship Manager™**, use **FedEx APIs** to integrate FedEx solutions into your own software, or use validated third-party **FedEx® Compatible** solutions from leading software providers to enable FedEx services on your web shop.³

Customs expertise

Cross borders seamlessly with our customs-cleared products, simple-to-use **documentation tools**, and experienced personnel around the world.

¹ Some FedEx locations are operated by independent third parties in cooperation with FedEx.

² Not available for FedEx® International Connect Plus.

PACKING YOUR SHIPMENT

Discover our wide range of packaging solutions

Whatever you're shipping, you need the perfect packaging for the job. Explore our comprehensive options and order your supplies — complementary to your shipments as a FedEx account holder.

When to use your own packaging

FedEx packaging is not available for shipments using **Economy and FedEx® International Connect Plus services within Europe**. You will need to use your own packaging for these shipments.

For Domestic shipments, you can only use the FedEx Reusable Envelope and Pak, and the Customer Packaging.

Our packaging is getting a new look and feel. Rest assured, it's still complementary to your shipments as a FedEx account holder.

Sustainability and innovation

We're committed to delivering a more sustainable future through innovative technologies and a goal of carbon-neutral operations by 2040.

Our sustainability goal	20
Innovation in action	21

We are updating our pick-up, delivery and last-mile fleets with the newest innovative technologies, including readying six facilities to support widespread use of electric vehicles.

“Our commitment to ESG performance is fundamental to how we operate and is embedded within our business strategy. By investing in the efficiency and resiliency of our network, we can work to reduce our footprint while growing responsibly and creating a simplified experience for our customers.”

- Raj Subramaniam, President and CEO

OUR SUSTAINABILITY GOAL

How we're helping to deliver positive change

As a company that connects 99% of the world's GDP, we're taking bold steps to help the only home – and place of business – we've got.

We're heading towards a more sustainable future with a goal of carbon neutral operations by 2040.

Practical Sustainability drives us towards responsible business practices, sustainable innovation, and full transparency. We're guided by three principles: decarbonise what's possible, co-create with purpose, and neutralise what's left. That's how we're working towards carbon neutrality in our own operations and supporting the low-carbon transition of the transportation and logistics industry as a whole.

INNOVATION IN ACTION

Discover some of our sustainability initiatives in Europe – and around the world

A modern fleet in the air

By modernising our fleet of nearly 700 aircraft, we've boosted fuel efficiency, lowered emissions, increased reliability, improved operational adaptability, and reduced costs. In FY24 alone, we saved 130 million gallons of fuel and avoided 1.2 million tonnes of CO₂e. Since 2005, we've cut our emissions intensity by 31%.

Greener energy on the ground

20% of our owned fleet in Europe now runs on alternative energy. We're adding more than 200 electric PUDs to the 100 already in service. 17% of our 170 linehaul vehicles run on HVO, and more than half of our ground support equipment uses alternative fuels. We've also deployed 67 e-cargo bikes and electric scooters in urban centres to support low-emission delivery.

LEED Gold certified in our facilities

Our newest road hub in Novara, Italy, holds LEED Gold certification, reflecting its strong focus on sustainability and energy efficiency. In 2024, we completed energy-efficiency audits in eight European countries, and we're extending them to 11 more. We now operate 13 BREEAM-certified facilities across France, Germany, the Netherlands, Poland, Spain, and the UK, along with three LEED-certified sites in Italy, the Netherlands, and Spain.

Clear insights with our reports

Get free, clear insights into your emissions with FedEx transportation services. Easily estimate your carbon footprint to support reporting requirements, including CSRD, and view estimated CO₂e shipping emissions for each shipment at the package or account level. Available in 34 languages across more than 90 markets. Visit [fedex.com](https://www.fedex.com) to find out more.

We're here for you

We're happy to answer any questions you may have about how we can take your business further. With our wide range of services, extensive global knowledge and dedicated team, we can help you grow – every step of the way.
