

FedEx® Healthcare Services

New Life Science Center in the Netherlands

Our newest European facility in Veldhoven, Netherlands joins our global network of Life Science Centers to provide customised, scalable solutions where we receive, store, kit, and pick/pack/ ship your products in one location. Located near Eindhoven Airport, it connects to most EU countries within 24 hours via the FedEx network.

From regulatory to validated temperature control, our deep expertise empowers you to focus on the patients who need you.

Features of the Life Science Center

Ambient and temperature-controlled shipping and storage, including kitting, pick/pack/ship, and labeling services in four different temperature zones

24/7 real-time monitoring and alarms for all controlled temperature zones

GDP licensed facility

Storage areas with 4 controlled temperature zones ranges:
