Packing tips for trouble-free carriage

To ensure that your shipments arrive on time and in good condition, it is important to take time in packing and labelling them correctly.⁽¹⁾

- Protect printed material in plastic covers.
- Use padded packs for small parts.
- Pack fragile items individually to prevent impact.
- Protect any sharp edges using bubble-wrap, corrugated card or foam.
- Seal packages using tough adhesive sheet or tape. Never tie packages with string, which can get tangled up in sorting machines.
- Remove all previous address details and other old labels from the packaging.

Heavy or bulky freight shipments:

For your shipment to be loaded into our aircraft it must be capable of being handled by forklift and packaged to allow for stacking of other products on top.

- Boxes must be banded and shrink-wrapped to the pallet, with the bands running in both directions.
- Pack any heavy objects carefully to avoid them moving around inside the package.
- Distribute weight evenly.
- Stack boxes on a pallet squarely corner-to-corner.
- Keep the top level of the pallet flat, to minimise risk of loss or damage to cartons.

FedEx carries certain items that are defined as Dangerous Goods by IATA.

Customer's own packaging is accepted. FedEx branded packaging including brown boxes may not be used to ship Dangerous Goods or Dry Ice (with some exceptions). To find out more, go to fedex.com or call our Customer Service on 0800 0222 333 (Netherlands), 02 752 75 75 (Belgium) or 8002 35 55 (Luxembourg).⁽²⁾

⁽¹⁾ This guidance is intended to reduce loss and damage due to improper packing. It is not intended to be a comprehensive guide to packing items. Proper packing is the sole responsibility of the shipper.
⁽²⁾ Availability of this service varies depending on origin, destination and nature of goods. Please call Customer Service for full details.

Completing your Waybill

A FedEx Waybill is required for each shipment to ensure that it is delivered quickly and safely. One FedEx Waybill is required for each destination address, irrespective of how many packages the shipment contains. For international shipments, the international Air Waybill does not replace a Commercial Invoice.

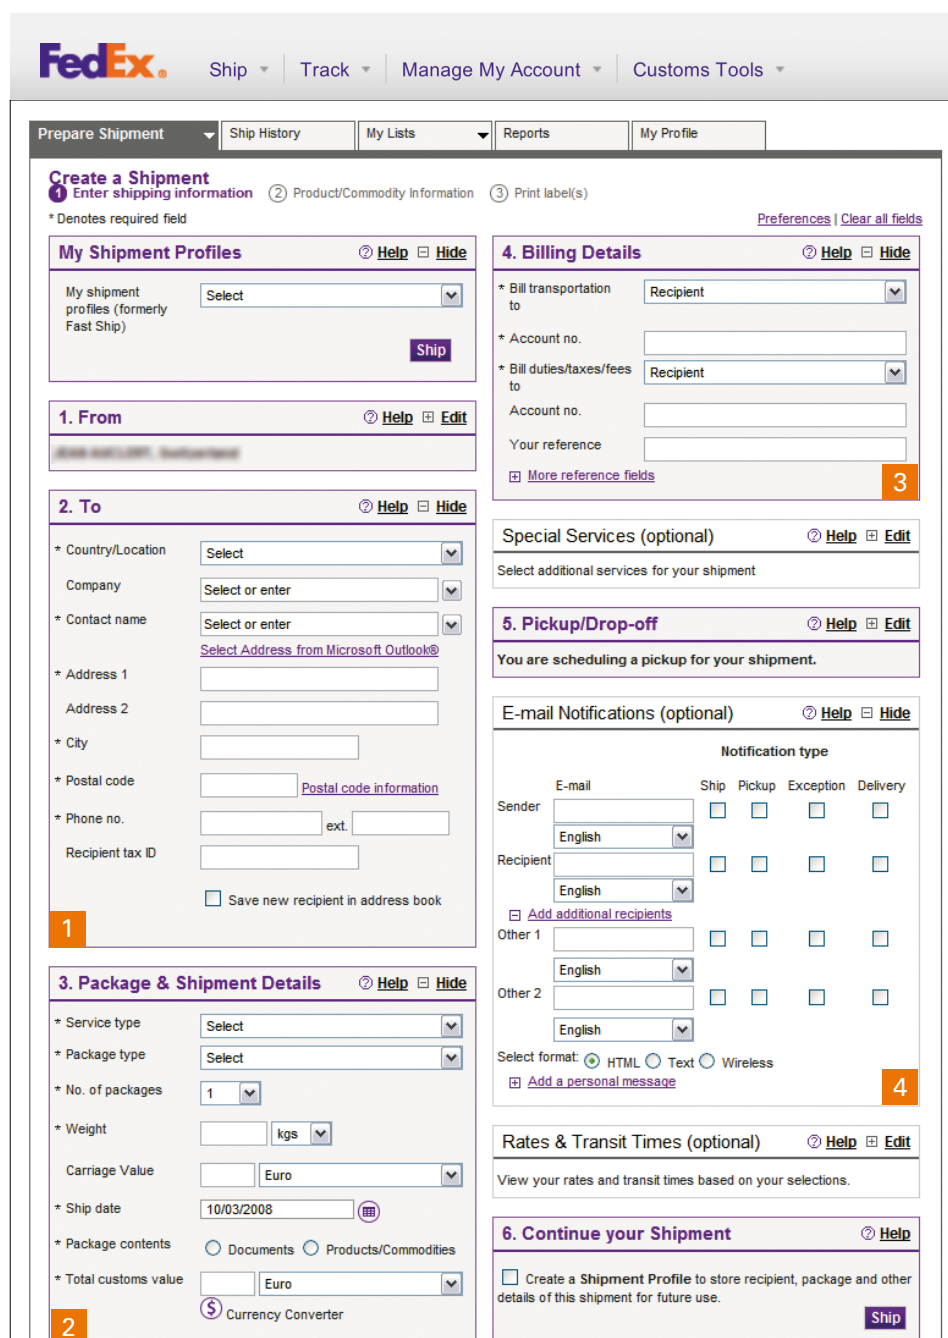

Save time, use FedEx Ship Manager™ at fedex.com

Information required on your FedEx Waybill:

1 Entering sender/recipient information

The first step in processing a shipment is to enter information about the recipient of your package.
If you select a recipient from your Address Book the recipient's details will be automatically populated by the system.

2 Specifying package details

Select the **type of service and the packaging** you want to use.
For international shipments:
Enter the **weight and value** of each package separately.

If you're shipping documents set the declared value of shipment to zero.

Indicate whether your shipment contains **documents** or **commodities**.

Enter a **description of the contents** of your shipment.

3 Specifying billing details

From the drop-down list, select the party that will be paying the shipping cost and the duties, taxes and fees.

If you choose to bill the recipient or third party, you also need to enter their account number. Please note however that some countries do not allow you to bill the recipient or a third party, please check with Customer Service if you wish to choose one of these options.

For import shipment: If you are also paying the duties and taxes, select "Recipient" but do not enter your account number again.

Optionally, enter **your reference** information in the designated text box.

4 Email notification

You can choose to receive alerts via email when a shipment has been shipped, delivered or when there has been a critical event that affects delivery. Enter the email addresses of everyone you wish to receive notifications from **FedEx ShipAlert®**.

Save your shipping documents

To save the international Air Waybill in digital format, select it from the list, click on the print button and select a printer to print a digital file (Adobe PDF Writer or Microsoft Office Document Image Printer).

Send the shipping documents to your shipper

Send the international Air Waybill to your shipper so he can print and attach the documents to the shipment.

Completing your Commercial Invoice

Customs authorities require an invoice for all international shipments. If your goods are intended for resale, a Commercial Invoice is required as custom officials use it to classify merchandise, so that duties and taxes can be correctly assessed. When completing your International Air Waybill online, a Commercial Invoice is automatically generated. If your goods are not intended for resale, a pro-forma invoice is required.

☆☆☆
A Commercial Invoice is not required for commodities in free circulation shipped within the European Union (EU).

It is mandatory for all shipments to countries outside the EU, except for documents that weigh less than 10kg.

Online help with all aspects of customs documentation

- Our online tool, **FedEx® Global Trade Manager** on fedex.com (click on “Customs Tools”), can indicate whether or not you require a Commercial Invoice and highlight any additional customs clearance forms that would be required to accompany your shipment.
- It gives detailed information on the commodity being shipped, and the country of origin and destination.
- It also provides information on relevant customs regulations, a currency converter and can even estimate shipping duties and taxes that would be due on your shipment.
- Work the way you want with our new full featured **Document Preparation Center**. You can save the documents you use most so you have them available anytime. You can even take a break then pick-up where you left off.
- Use **FedEx® Electronic Trade Documents** to submit your customs documentation electronically.

For exports: you should enclose with your shipment one original plus two copies of the invoice, each with an original signature.

For imports: save and send the Commercial/Pro-Forma Invoice to your shipper so he can print and attach the documents to the shipment. To save your Commercial/Pro-Forma Invoice created with FedEx Ship Manager™ at fedex.com, select it from the list, click on the print button and select a printer to print a digital file (Adobe PDF Writer or Microsoft Office Document Image Printer).

Information required on your Commercial Invoice:

1	Name, address and VAT number of shipper/exporter.
2	Name, address (including postcode and phone number) of recipient.
3	Country of manufacture: <ul style="list-style-type: none">• If the goods were made in more than one country, each country of origin must be stated next to each corresponding product.• The country of origin is the country in which the goods were produced – not the country from which they are exported.
4	Give a complete description of the item(s). Generic descriptions are insufficient. You need to indicate: <ul style="list-style-type: none">• What it is• What it is made of• How many/how much• How it will be used For example: “10 boxes of stainless steel screws for civil aircraft” rather than “civil aircraft parts.” Quantities: show individual and column totals for the number of packages, quantity, unit of measurement, weight, unit value and total value.
5	Specify the currency. Remember, several countries use the dollar sign (\$), so it is important to specify the unique three-letter code for each currency, e.g. USD, CAD. The sign “\$” is insufficient. You can find the appropriate currency code on the web site www.iso.org by clicking on “ISO 3166” section.

- Just go to fedex.com
- Click on the navigation menu “Ship”
- Log in with your user ID and password, and you are ready to organise the dispatch of your shipments.

Confirmation of the pick-up can be sent to up to four email addresses.

You can cancel a previously scheduled pick-up online.

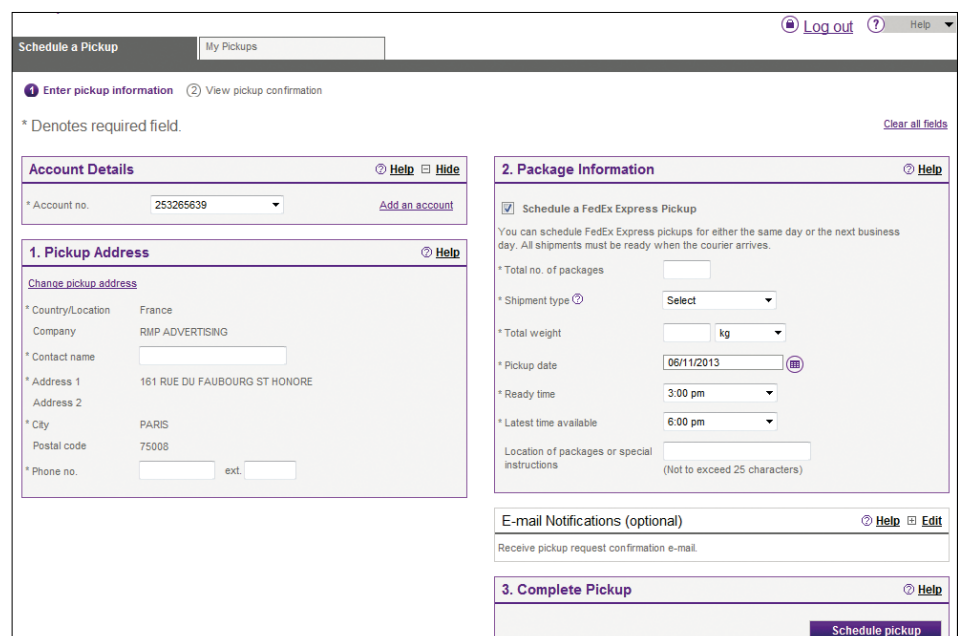

For imports: click on “Schedule a Pick-up” to schedule a collection on behalf of another shipper. If the shipper’s country is not supported, please contact the FedEx Customer Service of that country.

For freight: from 68kg to 1,000kg per item, please contact Customer Service to schedule your pick-up and receive your booking number.

Schedule a pick-up

The screenshot shows the 'Schedule a Pick-up' web form. At the top, there are tabs for 'Schedule a Pickup' and 'My Pickups'. The main form is divided into several sections: 'Account Details' (with a dropdown for account number 253265639 and an 'Add an account' link), '1. Pickup Address' (with fields for country/location, company, contact name, address 1, address 2, city, postal code, and phone number), '2. Package Information' (with a checkbox for 'Schedule a FedEx Express Pickup', fields for total number of packages, shipment type, total weight, pickup date, ready time, and latest time available), 'E-mail Notifications (optional)' (with a checkbox for 'Receive pickup request confirmation e-mail'), and '3. Complete Pickup' (with a 'Schedule pickup' button). The form also includes a 'Log out' link and a 'Help' icon in the top right corner.

Tracking your shipments 24/7

To find out exactly where your shipment is at any time, simply go to our website fedex.com – our full suite of visibility solutions means you can always find the location of your shipment and get a confirmation of delivery, including the time the goods were delivered and the name of the recipient. Thanks to FedEx® Mobile Solutions, you stay connected to your shipments wherever you are.

On the fedex.com homepage, enter your 12-digit tracking number shown on your FedEx Waybill and click on “Track” to follow the progress of your shipment.

You can also sign up for exceptions and delivery notifications. Simply send an email to track@fedex.com with the tracking number and receive an email back within few minutes.

If you're using **FedEx Ship Manager™** at fedex.com, click on “History” and select the shipment you wish to track.

At your fingertips wherever you are.
