MEET FEDEX EXPRESS

Delivering for businesses across Europe

When you choose FedEx, you're choosing a provider that can take your business further – even during your most challenging times.

As a FedEx customer, you aren't just able to ship packages quickly across the world. You can also deliver seamless, connected experiences to help your business digitise and grow.

And we don't just help you to thrive when times are good. We can help you adapt when conditions are more challenging too – whether that's keeping crucial supply chains moving during the Covid-19 pandemic, or how we've adapted to changes related to Brexit.

We're taking important steps that drive big change – to help you reach your next business goal.

- **Get there fast** with next-day deliveries worldwide
- **Get there smarter** with 24/7 near-real time insights into your shipments

CUSTOMS CLEARANCE

How we work with you to clear goods through customs

Ship across borders with confidence by relying on our expertise to deliver an efficient clearance process.

Did you know that FedEx provides clearance services for all international shipments? Clearance can be complex but, thanks to our local specialists with long-standing customs experience, we can ensure that customs entries are accurate and compliant with regulations. We can also help with the completion of customs documentation, and calculate the payment of duties and taxes.

If the paperwork you've provided is accurate and the goods comply with regulations, then the package is cleared by the customs authorities and FedEx can usually act as the customs broker/agent.

If the goods are not compliant – or if further information is needed – our brokers and specialists will work closely with you to ensure your shipment clears customs as quickly as possible.

Sustainability and innovation

We're committed to a sustainable future through transformational technologies and a goal of carbon-neutral operations by 2040.

Our sustainability goal	19
Innovation in action	20

We're transitioning our fleet to zero-emission (tank-to-wheel) vehicles - FedEx is the launch customer for General Motors' new BrightDrop EV600 electric delivery van.

OUR SUSTAINABILITY GOAL

How we're helping to deliver positive change

As a company that connects 99% of the world's GDP, we're taking bold steps to help the only home – and place of business – we've got.

In 2021 we announced our global goal to achieve carbon neutrality in our operations by 2040. Priority Earth is our initiative to get us there.

Our Reduce, Replace, Revolutionise approach continues to guide our strategy to reduce the environmental impact across our aviation and vehicle fleet, and in our facilities and materials.

We're also designating more than \$2 billion of initial investment in vehicle electrification, sustainable practices, and carbon sequestration.

“This goal builds on our longstanding commitment to sustainability throughout our operations, while at the same time investing in long-term, transformational solutions for FedEx and our entire industry.”

- Frederick W. Smith, Chairman and CEO

INNOVATION IN ACTION

Discover some of our sustainability initiatives in Europe – and around the world

In the air

FedEx® FuelSense, our comprehensive fuel-reduction program includes more than 70 fuel-saving projects with 883 million gallons of jet fuel saved since 2005.*

On the ground

We're transitioning our fleet to zero-emission (tank-to-wheel) vehicles, while piloting new last-mile solutions for greener deliveries, like cargo e-bikes in 6 major European cities.

In our facilities

All new FedEx facilities in Europe will seek LEED/ BREEAM sustainability certification. Our new BREEAM-certified facility in Toulouse, France features sustainable building materials, solar panels, and even special considerations for local wildlife.
