Surcharge and Other Information

South Korea

Fuel Surcharge

The surcharge percentage is adjusted every Monday, based on the US Gulf Coast Jet Fuel Index, and this percentage is applied to the total transportation charge (go to https://www.fedex.com/en-kr/shipping/surcharges.html for the prevailing fuel surcharge rate).

Demand Surcharge

During times of elevated shipping volumes, heightened demand for capacity, increased operating costs, and other strains on our network, FedEx may assess a Demand Surcharge.

- may be damaged if another piece is loaded on them; or

* Shipments that exceed these limits are unauthorized and may be refused, returned to the shipper, or disposed of at FedEx's sole discretion. However, FedEx may accept and deliver such shipments; if accepted, this surcharge applies. Package or handling-unit shape and dimensions may change during transit; FedEx may adjust shipment charges at any time.

Declared Value Charge for Carriage:

If you desire that FedEx assumes liability for a greater percentage of the actual cargo value, then you must declare the value for carriage on your air waybill and pay a “declared value surcharge”. The “declared value surcharge” for Export and ImportOne shipments paid by South Korea customers is equal to USD 1.20 per USD 100.00 (or fraction thereof) by which the declared value for carriage exceeds the greater of: (i) USD 100.00 or (ii) USD 9.07 per pound. The following maximum declared value for carriage will apply. Please contact FedEx Customer Service team for details.

Weight Information

Total shipment weight is unlimited. The maximum weight per package may be adjusted. Please contact our Customer Service team or Sales team for details.
Rates are calculated on the total weight of all packages on one international air waybill. Any fraction of a kilogram is rounded up to the next higher weight break. Such rounding may cause a variance in dimensional weight (volumetric weight) calculations.
Please note that the rates stated on FedEx's invoice shall be the final and official rates.
Additional charges may be assessed for shipments below a certain weight density. The dimensional weight (volumetric weight) (in kg) of a FedEx® International Deferred Freight shipment is calculated as follows. Please contact our Customer Service team for details.

$$\frac{\text{Length x Width x Height (centimeters or inches)}}{\text{6,000 for centimeters or 366 for inches}}$$

A minimum billable weight of 1 kg applies to FedEx Small Box, FedEx Medium Box and FedEx Large Box; and a minimum billable weight of 4 kg applies to FedEx Tube.

Shipments in FedEx packaging may be subjected to dimensional weight pricing.
In the case of multiple-piece shipments, the invoice weight will be the sum of the higher actual weight or dimensional weight of each individual package.
