Fuel Surcharge

The surcharge percentage is adjusted every Monday, based on the US Gulf Coast Jet Fuel Index, and this percentage is applied to the total transportation charge (go to https://www.fedex.com/en-my/shipping/surcharges.html for the prevailing fuel surcharge rate).

Demand Surcharge

During times of elevated shipping volumes, heightened demand for capacity, increased operating costs, and other strains on our network, FedEx may assess a Demand Surcharge.

Non-Standard Shipment Fees

*Additional Handling Surcharge - Dimension:

USD 30.00 per package.

This surcharge applies to any package that:

- measures greater than 121 centimeters along its longest side; or
- measures greater than 76 centimeters along its second-longest side; or
- measures greater than 266 centimeters in length and girth — the length and girth is length plus (two times the height) plus (two times the width); or
- has a cubic volume (Length x Width x Height) greater than 169,901 cubic centimeters.

Subject to a 23kg minimum billable weight.

*Additional Handling Surcharge - Weight:

USD 30.00 per package.

This surcharge applies to any package that measures greater than 25kg in actual weight.

*Additional Handling Surcharge - Packaging:

USD 30.00 per package.

This surcharge applies to a package that meets any of the following criteria:

- is not fully encased in an outer shipping container
- is encased in an outer shipping container not made of corrugated fiberboard (cardboard) materials, including but not limited to metal, wood, canvas, leather, hard plastic, soft plastic, or expanded polystyrene foam (e.g., Styrofoam)
- is encased in an outer shipping container covered in shrink wrap or stretch wrap
- is round or cylindrical, including (without limitation) mailing tubes, cans, buckets, barrels, tires, drums, or pails
- is bound with metal, plastic, or cloth banding, or has wheels, casters, handles, or straps (e.g., a bicycle) (including packages where the outer surface area is loosely wrapped, or where the contents protrude outside the surface area)
- could become entangled in or cause damage to other packages or the FedEx sortation system

If a FedEx package is subject to an Additional Handling Surcharge – Packaging, and also meets the criteria for Additional Handling Surcharge – Dimension, the Additional Handling Surcharge – Dimension minimum billable weight of 23kg will still apply.

*We reserve the right to assess additional handling charges for packages that require special handling or that require FedEx to apply additional packaging during transit.

*Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the dimensions change during transit, FedEx may make appropriate adjustments to the shipment charges at any time.

*Oversize Charge:

USD 80.00 per package.

This surcharge applies to a package that:

- exceeds 243 centimeters in its longest side; or
- exceeds 330 centimeters in length and girth — the length and girth is length plus (two times the height) plus (two times the width); or
- measures greater than 50kg in actual weight; or
- has a cubic volume (Length x Width x Height) greater than 283,168 cubic centimeters.

If a FedEx package is subject to an Oversize Charge, and also meets the criteria for Additional Handling Surcharge – Dimension, the Additional Handling Surcharge – Dimension minimum billable weight of 23kg will still apply.

*Package shape and dimensions may change during transit, which can affect the package's surcharge eligibility. If the dimensions change during transit, FedEx may make appropriate adjustments to the shipment charges at any time.

*Unauthorized Package Charge:

USD 280.00 per package.

- measures greater than 419 centimeters in length and girth — the length and girth is length plus (two times the height) plus (two times the width); or
- has an actual weight greater than 68kg.

FedEx international packages will be subject to a 23kg minimum billable weight when the package also meets the criteria of the Additional Handling Surcharge - Dimension.

* Shipments that exceed these limits are unauthorized and may be refused, returned to the shipper, or disposed of at FedEx's sole discretion. However, FedEx may accept and deliver such shipments; if accepted, this surcharge applies. Package or handling-unit shape and dimensions may change during transit; FedEx may adjust shipment charges at any time.

Weight Information

Total shipment weight is unlimited. The maximum weight per package may be adjusted. Please contact our Customer Service team or Sales team for details.
Rates are calculated on the total weight of all packages on one international air waybill. Any fraction of a kilogram is rounded up to the next higher weight break. Such rounding may cause a variance in dimensional weight (volumetric weight) calculations.
Please note that the rates stated on FedEx's invoice shall be the final and official rates.
Additional charges may be assessed for shipments below a certain weight density. The dimensional weight (volumetric weight) (in kg) of a FICP shipment is calculated as follows. Please contact our Customer Service team for details.

$$\frac{\text{Length x Width x Height (centimeters or inches)}}{\text{5,000 for centimeters or 305 for inches}}$$

A minimum billable weight of 1 kg applies to FedEx Small Box, FedEx Medium Box and FedEx Large Box; and a minimum billable weight of 4 kg applies to FedEx Tube.

Shipments in FedEx packaging may be subjected to dimensional weight pricing.
In the case of multiple-piece shipments, the invoice weight will be the sum of the higher actual weight or dimensional weight of each individual package.
