Demand Surcharge

During times of elevated shipping volumes, heightened demand for capacity, increased operating costs, and other strains on our network, FedEx may assess a Demand Surcharge.

If you desire that FedEx assumes liability for a greater percentage of the actual cargo value, then you must declare the value for carriage on your air waybill and pay a "declared value surcharge". The "declared value surcharge" for Export shipments in Singapore is equal to SGD 4.80 per SGD 200.00 (or fraction thereof) by which the declared value for carriage exceeds the greater of: (i) SGD 200.00 or (ii) SGD 19.80 per pound. The following maximum declared value for carriage will apply. Please contact our Customer Service team for details.

Weight Information

Total shipment weight is unlimited. The maximum weight per package may be adjusted. Please contact our Customer Service team or Sales team for details.
Rates are calculated on the total weight of all packages on one international air waybill. Any fraction of a kilogram is rounded up to the next higher weight break. Such rounding may cause a variance in dimensional weight (volumetric weight) calculations. Please note that the rates stated on FedEx's invoice shall be the final and official rates.
Additional charges may be assessed for shipments below a certain weight density. The dimensional weight (volumetric weight) (in kg) of an IPD/IDF/IED shipment is calculated as follows. Please contact our Customer Service team for details.

$$\frac{\text{Length x Width x Height (centimetres or inches)}}{\text{5,000 for centimetres or 305 for inches}}$$

Shipments in FedEx packaging may be subjected to dimensional weight pricing.

Footnotes

1 This surcharge is applicable to IPD and IDF only.
