

Dear FedEx customer,

Along with greetings and thanking you for your preference in using the services of our company, we would like to inform you about a new provision of the AFIP that replaces the bar code with a QR code in the generation of any electronic voucher.

This QR code, which replaces the bar code, includes specific information about the content of the document, which can be accessed by scanning the code with a mobile device.

The purpose of this provision is that you can quickly validate the data issued and also automate the registration of the data of any voucher.

If you have any questions, please contact your Account Executive or call our FedEx Customer Service Center at 0810 9999 868.

Thank you for choosing FedEx.

Sincerely,

**FEDEX EXPRESS ARGENTINA**
