

CULTIVATING POSSIBILITIES. **BUSINESS BLOSSOMS.**

Solutions
for your flower
shipments

Take your business to the United States with the largest cargo airline in the world. At FedEx, we know your business and we have logistic solutions so that your flowers arrive on time and with the freshness your customers deserve.

Why FedEx solutions for your flower shipments?

Because FedEx has the best coverage for the flower distribution in the U.S.*

FedEx solutions for your flower shipments offers a range of air transportation solutions that provide answers to your special export needs for cargo and perishable goods. The experience and global scope that FedEx has achieved allow us to support your export process from beginning to end, including pick-ups in urban areas, documentation, customs clearance, tracking and monitoring, delivery and reports. We have the ability to adjust our services to your cargo needs and to maintain control throughout the logistical process.

FedEx solutions for your flower shipments characteristics and benefits

- Customized solutions based on your service requirements and adjusted to the size of your cargo or business.
- Day definite, time definite delivery service to the United States.
- Dedicated floral customer service to monitor your shipments.
- Customized competitive rates.
- Distribution options. Your products may be distributed as separate shipments to multiple or single destinations.
- FedEx electronic solutions for shipments, order processing, tracking and signed proof of delivery.
- End-to-end shipments' visibility.

** Check with your Sales Executive the service availability.*

FedEx Electronic Solutions

We offer automated tools to simplify your shipments and integrate FedEx applications to your technology system.

FedEx® Global Trade Manager*

- Find out quickly what documents are necessary for your shipment.
- Get the harmonized codes for your shipments and complete the most frequently used documents online.
- Read about international trade regulations, get detailed descriptions about the countries you are shipping your goods to, and confirm that the individuals and companies you do business with have not been denied the privilege of international trading.

FedEx® Tracking

- The newly redesigned fedex.com is transitioning FedEx InSight® into FedEx® Tracking.
- FedEx® Tracking provides you with an optimized experience with the latest technologies to help you better manage your shipments.
- You will have detailed information, accessible 24 hours a day at fedex.com Tracking for your Inbound, Outbound, and Third Party shipments.
- Search by tracking number, customer reference or door tag number.

**Please register to have access to this information*

- Get apprised of deliveries and more with automatic notifications.
- Download a list of all your shipments and export only the data you want to see by dragging and rearranging columns, applying filters, or creating custom views to export specific data in various file formats.

FedEx Ship Manager® Software

- Use software or hardware solutions designed for shipments which make your processes easier.
- Manage large amounts of shipments electronically, for greater efficiency, less errors and less paperwork.
- Store thousands of records in the shipment databases designed for you. Create distribution lists and process shipments quickly.

FedEx Ship Manager® Server

- Speed up your shipping process, improve security and avoid using internet by using a direct connection to the FedEx systems.
- Help your supply chain be more efficient.
- Ideal for customers in several locations.
