

August 2020

Dear FedEx Customer,

We want to inform you that the new decree 1090 of August 3<sup>rd</sup>, 2020 establishes that as of August 18<sup>th</sup> of the current year, import postal traffic and express shipments with declared value of up to USD \$200 won't be subject to pay the corresponding customs duties. This measure facilitates and expedites the imports process, creating an opportunity to continue developing foreign trade.

FedEx Express offers its customers assistance to complete the customs clearance process before the National Tax and Customs Organization (DIAN in Spanish) under the postal traffic and express shipments. The ancillary charges have not changed and correspond to the declared value of your shipment. The updated values of our ancillary charges are available in our website <https://www.fedex.com/en-co/shipping/rates.html>

For more information, please contact our Customer Service Center at 01.8000.110.339 or 2910100 in Bogota.

We thank you for your preference and we look forward to continue serving your future shipping needs.

Sincerely,

FedEx Express Latin America and the Caribbean
