Guide for Inputting Harmonized Code (HS code) and Manufacturers Identification Code (MID code)
in the FedEx automation tools

If you are shipping with the below automation tools, please follow the steps to provide your HS code and MID code within your shipping tool.

> *Manufacturer Identification Code (MID)* is one of the required information for import clearance into the U.S. It's used as an alternative to the full name and address of a manufacturer, shipper or exporter and is always required for U.S. formal customs entries. MID code must be shown on the commercial invoice for import clearance into the U.S.
>
> The MID code is used on paperwork presented to the U.S. Customs and Border Protection (CBP), the U.S. Food and Drug Administration (FDA), the U.S. Department of Agriculture (USDA) and the good's recipient.

Note: HS code and MID code are required for every item. Please provide in the beginning of the item description of each item in your shipment.

FedEx Digital Tools	Simple steps required
FedEx Ship Manager at fedex.com (Compact View/Comforable View)	1. Add a new item for your shipment Compact View: Comfortable View:

2. Put MID code and HS code at the beginning of your item description and save the record (Example: MID code/HS code/item description. Below info is for illustration only)

1. Enter HS code for the item. This will help expedite customs clearance and help with a more accurate estimation of duties and taxes. If you are not clear on which code to use, you can search by putting relevant keywords. Enter the corresponding /accurate H.T.S. code (Harmonized Tariff Schedule of the United States) for proper duties-and-taxes estimations on the air waybill. Note: UAE can continue providing 12 digit HS code as per federal customs for exports

3.

   Read through and pick one most appropriate (or enter more details to narrow the results)

ⓘ   Enter the item's HS code or relevant keywords to find the classification.
