

Solution Overview

BluJay Parcel is an integral part of the BluJay Global Trade Network, providing global visibility and access to domestic and international shipping services, with flexible deployment options including cloud hybrid deployment. Support for black-box and fully attended workstations, robust API and universal carrier module combine to provide flexibility and future proofing.

Thousands of companies process millions of shipments every day, automating mission-critical processes for parcel and LTL shipping, lowering costs, and improving speed and reliability. BluJay Parcel is a true enterprise solution, handling increasing volume for any operation – distribution center, warehouse, manufacturing, e-commerce, retail and corporate mailrooms – from a single global platform.
