

Solution Overview

Descartes Order Express™ shipping software is an easy-to-use and intuitive shipping system interface that is designed to automate the transportation management and freight fulfillment processes.

Descartes Order Express™ helps automate pick, pack and ship processes, making it easy to sort orders by customer, carrier service, weight, destination and other variables. Carton contents are captured, and packing slips, bills of lading, shipping manifests and other essential documents are prepared. The solution can integrate with a broad range of ERPs and other platforms, provides the ability to print shipping labels that comply with FedEx standards and much more.

DESCARTES™
Order Express
