

Solution Overview

ERP Integrated Solutions is a recognized leader in helping organizations seamlessly integrate multi-carrier/multi-mode shipping functionality directly from within SAP® systems hence eliminating the need for external shipping solutions.

Through their ShipERP™ SAP Shipping Solution, which supports integrations with SAP® ERP, EWM, GTS and TM systems on the SAP® ECC and SAP® S/4 HANA Technology Platforms, native SAP shipping functionality is achieved. The ShipERP™ suite of offerings provides solutions in the areas of global trade logistics, hazardous material compliance, address validation, rating, track and trace, freight planning and optimization, reverse logistics and mobile/portal capabilities. ShipERP™ is a complete transportation solution for handling all inbound and outbound freight requirements.
