

# Streamline Your Business With the Right E-Commerce Software

FedEx® Compatible offers many different software solutions that integrate into hundreds of online marketplaces. Implementing a FedEx Compatible solution can help you streamline business processes through automation and help manage multiple channels, inventory, shipping and more. That means you have more time to focus on other aspects of your business.

When you choose FedEx Compatible software for your e-commerce business, you can feel confident about your decision. Each solution has been certified by FedEx to include all of the shipping services you need to meet your customers' expectations and to grow your business.

## **Don't Build – Buy!**

**More than half of all large, in-house IT projects come in over budget and don't meet all of the company's needs.\* Don't sacrifice time, money and features – find a FedEx Compatible software solution that fits your budget and your business.**

## Solutions for Every Size

Most FedEx Compatible solutions allow you to scale the software as your business grows. You can start out for a small monthly fee and, as your sales increase and your business becomes more complex, you can add on additional features for an additional cost. No matter the size of your e-commerce business, FedEx has a solution that fits your budget.

**74%** of customers would shop online more often if they had more control over their deliveries†

## Delivery Experience

With a FedEx Compatible solution, you have access to the FedEx products and services that give your customers the delivery experience they want. With growing concern over porch piracy, give your customers peace of mind by letting them get shipments on Saturday with FedEx Home Delivery, pick up their packages from a network of over 55,000 retail locations with Hold at FedEx Location or redirect their packages on the fly to another address with FedEx Redirect to Hold.

## New Markets

Did you know that 95% of the world's consumers reside outside of the U.S.? With a FedEx Compatible solution, you can get orders to customers all around the globe – to more than 220 countries and territories. Our solutions offer directly integrated international FedEx shipping services for both speed and economy, global returns, Electronic Trade Documents and other special features that simplify international shipping.

With the FedEx Compatible stamp of approval, you'll always get the reliability you expect from FedEx – with easy access to FedEx shipping options and rates, fast processing, powerful tracking and a broad array of services.

Contact your FedEx Account Executive or Customer Technology Consultant for more information.
