

# Solution Overview

**CalcRate/CalcPak** and other transportation packages available from **AR Traffic Consultants** are designed to route/pre-rate orders, produce parcel labels and carrier documentation, track shipments, audit and pay freight bills and provide reporting/what-if analytics. These programs are designed as a fully integrated freight management solution.

ARTC has been providing shippers with advanced transportation management software and third-party logistics services since 1964. We are a FedEx Certified Solution Provider. All of our products and services are designed to improve efficiency, accuracy, record-keeping, control and auditability as well as to lower freight costs. Our tools offer seamless integration with multiple supply chain systems. The solution suite includes: carrier selection and rate quotation, shipment rating, scale station label/manifest creation, load tendering, bill of lading and export documentation production, shipment tracking for outbound and inbound freight moves. In addition, automatic freight charge calculation for customer freight-on-invoice and a robust freight bill audit/payment module are available. Our reporting dashboard includes charts and heat-maps, a build-your-own tool and powerful “what-if” analytics. Do it all yourself to gain control of your freight spend or use our out-sourced expertise to support you process.
