

# Solution Overview

XPS Ship is a certified FedEx Compatible Provider. A free web-based shipping solution with ecommerce integration, XPS Ship helps merchants efficiently fulfill online orders. Integration capabilities include commonly-used ecommerce sales channels such as Amazon, eBay, Shopify, Walmart, WooCommerce, and many more. REST API, webhooks, and ODBC integrations are also possible, as is CSV importing of orders. XPS creates efficiencies for merchants through advanced features like Live Customer Service, Ecommerce Integration, Batch Printing and more.
