

Solution Overview

Precision Software, a division of QAD Inc., provides industry-leading global trade management, transportation execution and multi carrier shipping software solutions from a single, integrated platform. Preeminent industry leaders rely on Precision's 21 global support centers to leverage more than 5,000 carriers and manage over 3 billion shipping transactions annually.

The PRECISION solution's open architecture allows for easy integration with leading Enterprise Resource Planning (ERP), Warehouse Management Systems (WMS) and existing legacy solutions. An ISO-certified company, Precision Software is the foremost choice to minimize shipping costs, optimize first mile and last mile deliveries, avoid compliance delays and mitigate the risks associated with dynamic trading environments. Precision Software's customers span multiple industries including banking and finance, life sciences, high technology, retail, industrial, automotive, higher education, public sector and logistics providers.
