NRGship is comprehensive FedEx shipping software that runs on a Mac or Windows and easily integrates with any FileMaker solution to manage shipping in one place.

NRGship is a solution for FileMaker developers and in-house professionals who want to add shipping to their solutions. It supports all the domestic and international services you need to manage your FedEx shipments to destinations around the world.

Save time, money and eliminate errors by stopping the re-keying of importing & exporting shipment data. Instantly update orders with ship charges for efficient and accurate billing. With integrated shipping, you'll spend less time per shipment, allowing you to ship more per day or focus on other business activities.
