

Solution Overview

Logistyx TME & ShipIT solutions are designed to meet all parcel compliance. Whether your shipping 1000 shipments per hour in North America or shipping 100,000 shipments per hour globally, our Cloud Enterprise application will scale to exceed your requirements. Our TMS delivers shipment execution, documentation, consolidation, inbound, control tower, freight audit as well as business intelligence all in a single SaaS app.

Developed for integration. Whether your order/shipment details reside in your CRM, Shop Cart, OMS, TMS, ERP, WMS, PLC, etc....It does not matter to us. Logistyx was born in the cloud with compatible API technology that will retrieve and return data from your native source back to your native repository.

Single solution for your entire enterprise. Largest Global carrier network, compliant with Dangerous Goods, and International regulations. All Carrier compliant documentation included. Security is a priority; your customer data is safe. Direct integration to automation. High speed auto print and apply, in motion dimensioning, license plate, auto sort, zone skipping, future-ship, with date, rate & route shopping.

From anywhere to anywhere shipping. In sync with Omni-channel and multi-channel strategies, offering unlimited access, unlimited users, and unlimited locations.
