

Nine steps to high-quality print

To ensure quality print, there's a lot that goes on, but you shouldn't have to worry throughout the process. Every step — consultation, file upload, proofs, printing, finishing, quality control, packing, shipping and delivery — is expertly handled to make for a smooth turnaround. Here's what's going on behind the scenes.

Simply put, we take the worry out of commercial print.

Print consultation

1

Strategy

Bring your message to life with a creative print solution. Our print experts look at the overall campaign and consult with you on what's possible.

2

Consideration

The key value drivers for your project (speed, costs, impact, etc.) are established.

3

Evaluate options

Your options are discussed. We then arrive at a solution together for this project.

Logistical planning

4

Customer planning

Our team will go over every detail of file prep. So when you're ready to submit the files, you have all the information you need.

5

Production planning

We take care of the pre-press services, final pricing, network capacity and capability planning for efficient routing.

Project management

6

Order management

We offer customized service throughout project lifecycle — from order entry through billing.

8

Shipping and delivery logistics

Follow your shipment every step of the way with delivery tracking.

7

Production management

This step includes quality inspection, proofs and careful packaging prior to distribution.

9

Billing and reporting

We ensure your satisfaction. Every box has been checked, and every print item is in pristine condition.

Our consultation and print process gets your project to where you need it, making the greatest impact for your organization.
