Regulatory Alert: EU Increases Duties on Certain U.S. Goods

June 13, 2018

The European Union (EU) has drawn up a list of commodities that will be subject to increased duty as of June 20, 2018 when these goods are originating from the U.S.

The list goes beyond steel and aluminum products and includes commodities like motorcycles, jeans, bourbon and peanut butter.

The full list of commodities can be verified in Annex I of Implementing Regulation (EU) 2018/724. Pending the approval of the World Customs Organization (WCO) this list is final.

The legislation already foresees another list of commodities with other duty tariffs for 2021 implementation.
