

ADDITIONAL LITHIUM BATTERY SAFETY DOCUMENT

WARNING: Lithium and Sodium Ion cells or batteries identified as being damaged or defective in accordance with Special Provision A154 is forbidden for transport; waste cells or batteries and cells or batteries being shipped for recycling or disposal are forbidden for air transport with FedEx.

This package contains Section II lithium cells or batteries in the following configuration (check applicable):

Lithium Ion – with a maximum of <ul style="list-style-type: none">• 20 Watt-hours per cell; and• 100 Watt-hours per battery	Lithium Metal – with a maximum of <ul style="list-style-type: none">• 1 gram of lithium metal per cell; and• 2 grams of lithium per battery
Packed with equipment (ICAO/IATA UN3481, Packing Instruction 966, Section II) The number of cells or batteries in each package must not exceed the number required for each equipment's operation plus 2 spare sets	<ul style="list-style-type: none">• Packed with equipment (ICAO/IATA UN3091, Packing Instruction 969, Section II) The number of cells or batteries in each package must not exceed the number required for each equipment's operation plus 2 spare sets
<ul style="list-style-type: none">• Contained in equipment (ICAO/IATA UN3481, Packing Instruction 967, Section II) Cells or batteries installed in equipment	<ul style="list-style-type: none">• Contained in equipment (ICAO/IATA UN3091, Packing Instruction 970, Section II) Cells or batteries installed in equipment
Handling Information <ul style="list-style-type: none">• This package must be handled with care. A flammability hazard exists if the package is damaged.• If the package is damaged in transportation, it must not be loaded until the condition of the contents can be repacked if the contents are intact and protected against short circuits.• For more information about the batteries contained in this package call the following telephone number (list telephone number here, including area code and any applicable country code): _____	
Terminology <ul style="list-style-type: none">• Cell – electrochemical unit, consisting of an anode and a cathode, capable of generating electrical current• Battery – assembly of cells• Lithium ion cells/batteries – rechargeable, includes lithium polymer cells/batteries• Lithium metal cells/batteries – generally non-rechargeable	
Name/Address of Shipper (optional)	Name/Address of Consignee (optional)
I hereby declare that the contents of this consignment despite the product name or appearance are exempted from designation as dangerous goods restricted for air transportation according to the applicable international and national government regulations.	Name
	Export Date
	Signature
