Fuel Surcharge for U.S. Domestic Express Freight

For FedEx Express, the fuel surcharge is a percentage assessed on the net package rate plus applicable surcharges. The fuel surcharge percentage is subject to weekly adjustment based on the weekly U.S. Gulf Coast (USGC) spot price for a gallon of kerosene-type jet fuel, as published by the U.S. Department of Energy. The surcharge now in effect applies to all FedEx Express® U.S., U.S. export and U.S. import shipments, except for FedEx International Express Freight® and FedEx International Airport-to-AirportSM shipments.

Effective Feb. 1, 2021, the fuel surcharge for U.S. Domestic Express Freight services will be a charge per pound assessed on the rated weight of the shipment. The charge per pound will be subject to weekly adjustment based on the weekly published U.S. Gulf Coast (USGC) spot price for a gallon of kerosene-type jet fuel.
