FedEx U.S. export alternative zoning zones

Determine U.S. export alternative zoning rates

1. Find the zone for your destination country in the zone table below. For shipments to Canada, refer to the postal code table in the [FedEx Service Guide](#).
2. Determine your total shipment weight (round up to the next-higher pound). For freight services, also determine your service option (door-to-door, dropoff, hold-at-location, or dropoff and hold-at-location).
3. Choose the service you wish to use.
4. For package services, go to the corresponding package rate table below to determine the rate for the service you choose. For freight services, go to the corresponding freight rate table and multiply the per-pound rate by total shipment weight.
