

KEEP AWAY FROM Radioactive Materials

THIS PACKAGE CONTAINS UNDEVELOPED FILM, RADIATION DOSIMETERS OR OTHER RADIATION SENSITIVE MATERIALS

During all FedEx Express operations, including air, ground, loading, and storage maintain the following minimum separation distances between all radioactive material packages and this package. The Total Transport Index (Total TI) represents the sum of all TI's on an aircraft, ground vehicle, and within twice the separation distance specified below during loading or ground storage operations.

Total TI	Meters	Feet
1	1.2	4
5	2.4	8
10	3.5	11
20	4.9	16
30	6.0	20
40	6.9	23
50	7.9	26
100	11.0	36
150	13.4	44
200	15.5	51

1. For aircraft operating under DOT-SP 1522B because there is more than 200 TI on the aircraft load this package in Position 1.
2. For aircraft operating under DOT-SP 1522B because there is a Radioactive Yellow II or Yellow III with an ADG subrisk loaded in the Haz Can load this package in a position or belly compartment where the radiation level does not exceed 1 mR/hr as measured with the Prima 7.
