

# Peak surcharges and fees for international services

Updated Nov. 19, 2021

Due to disruptions in the global supply chain in the wake of the COVID-19 crisis, we announced a surcharge on all FedEx Express and TNT international parcel and freight shipments beginning April 6, 2020.

Air cargo capacity remains limited, and we are incurring incremental costs as we continue to adjust our international networks to best deliver much-needed goods and services in this constrained environment.

Beginning Nov. 22, 2021, the Peak Surcharge amount for some FedEx Express parcel and freight shipments and some TNT parcel shipments will increase: specifically, shipments originating in Indonesia, Japan, Malaysia, Philippines, Singapore, South Korea, Taiwan, Thailand, and Vietnam and destined to some countries in APAC, Europe, LAC, and MEISA.

Beginning Dec. 6, 2021, the Peak Surcharge amount for some FedEx Express parcel and freight shipments and some TNT parcel shipments will increase: specifically, shipments originating in Australia and New Zealand and destined to some countries in APAC, Europe, LAC, and MEISA.

This surcharge does not apply to domestic shipments.
