

Freight made simple. Start shipping with the FedEx Freight® box.

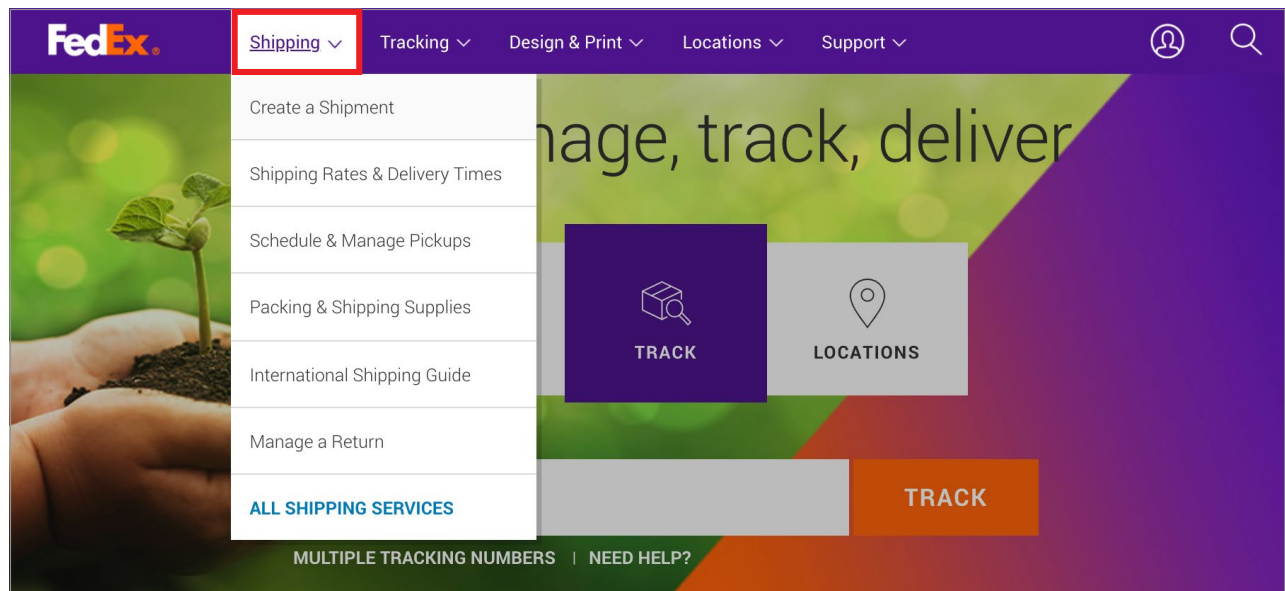

Freight shipping can open up new doors for your business — even if you don't have time to classify each item. Our freight box makes transporting less-than-truckload (LTL) shipments simple, with improved flexibility, increased security, and best of all, no freight classification.

You can find end-to-end rate quotes for the FedEx Freight box quickly and accurately with the **Get Rates & Transit Times** tool. Whatever you're shipping, this tool can help you compare rates and transit times to make an informed decision about your freight.

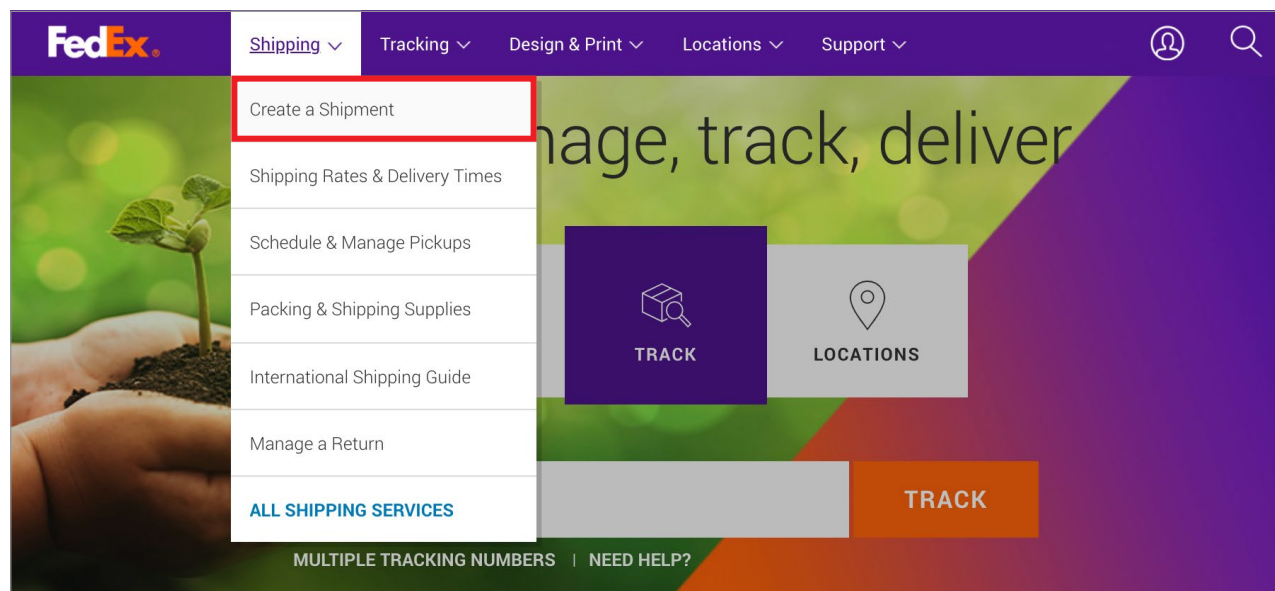

Before you start, please note: FedEx Freight box requires a separate account and pricing. For help signing up, contact your FedEx account executive.

How It Works

1. Go to **fedex.com**. Log in (if you haven't already) and click the **Shipping** tab on the main page.

2. On the **Shipping** tab, click the **Create a Shipment** link.

3. On the **FedEx Ship Manager®** page, **Select** the **LTL Freight** tab.

In the **Account Information** section, select your freight box account from the **Select an account** dropdown list. (Note: if you do not see your **Freight Box** account in the dropdown list, you will need to add your account.)

Remember: FedEx Freight box requires a separate account and pricing. For help signing up, contact your FedEx account executive.

For help adding your Freight Box account to the drop down menu (highlighted) and adding an authorized user Freight tech support at 1.800.435.7949.

You can **add authorized users** to your account by following the steps on the Administration tab.

A screenshot of the FedEx Ship Manager® 'Create a Shipment' page. The 'LTL Freight' tab is selected and highlighted with a red box. The page shows the 'Account Information' section with a dropdown menu for 'Select an account' that is highlighted with a red box. The dropdown menu is currently empty, showing 'Select or enter...'. Other options in the form include 'Sort list by: Company name (selected) or Account nickname', 'I am the: Shipper (selected), Consignee, or Third Party', and 'Payment terms: Prepaid, Collect, Collect - Section 7 Signed, or Collect - Section 9 Signed'. There are links for 'Preferences', 'Clear all fields', 'Help', and 'Add an account'.

4. Confirm that the **Payment type/terms** are correct. To change payment type or terms, click the **Edit** link to expand the options.

- If the shipment is coming **from** you, select **Shipper** next to **Payment type** and select **Prepaid** next to **Payment terms**.
- If the shipment is coming **to** you, select **Consignee** next to **Payment type**, select **Collect** next to **Payment terms** and enter the appropriate information in the **From** fields. (The **To** fields in Step 5 will auto-populate from your account information, but you can change them later if needed.)

Note: Whether you're the shipper or the consignee, you must have an account with FedEx Freight Box options before initiating a shipment to ensure the correct pricing is applied.

8. In the **Shipment Details** section, enter the Description, Hazmat¹, number of **Handling units**² you're shipping and be sure to select **Pallet/Skid** as the packaging type, pieces (number of Freight Boxes), enter the Total weight³, Class, Dimensions of your Freight Box and the NMFC.

For more than one handling unit: Select Add handling unit, and another row will appear to enter information for another box/handling unit.

- You do not have to know or submit accurate weight and class information, but they're still required fields to generate a rate quote and process your shipment. Enter any number less than 1,200 in the **Weight** column. Select any **Class** from the dropdown. These fields will not affect your rate.

Notes about this section:

¹Hazardous materials cannot be shipped in the FedEx Freight box, and shipments containing hazardous materials cannot be created using your FedEx Freight box account.

²A **Handling Unit** is one item that can be picked up by a forklift, which could be one Freight Box or two stacked and wrapped together (which would be two pieces)

³All freight box shipments are weighed to ensure that shipments comply with transportation safety regulations. The maximum weight limit is 1,200 lbs. Shipments over 1,200 lbs. will be charged list rates.
