

Instructions for
Toxic Substances Control Act (TSCA) Certification

Each one of the TSCA Certifications attached has a specific intended purpose:

1. The version with the Waybill or reference number section is to be used for single-shipment certifications ONLY
 - Please enter the shipment international air waybill number (IAWB) of the shipment in this area
 - Note that completing the Company name, Company address, and Certifier title fields is OPTIONAL
 - The single-shipment certifications are to be included with the shipment documents at the time the shipment is created.
 - The single-shipment certifications can also be sent directly to the trace agent at paperwork@fedex.com. The shipment's air waybill number should be included in the subject-line of the email.
2. The annual certification is the version with the "valid for twelve months" language and is to be used for filing multiple commodity TSCA articles with FedEx Trade Networks (FTN) ONLY
 - Include the date at the top of the form
 - Check either positive or negative certification for the TSCA articles being submitted
 - ALL POSSIBLE TSCA-regulated items should be included, not just the items for a particular shipment
 - All three columns do NOT have to be completed; just the ones you use for your specific TSCA article(s)
 - Note that completing the Company name, Company address, and Certifier title information blocks below the three columns is OPTIONAL, but the customer's details are required in order to update or create the customer's profile.
 - Once completed, the annual version can be sent to supportservices@fedex.com.
Please note: Only the annual version (covering the 12-month period) can be sent to this contact address.
