12.0.1	12.0.3	12.0.5				

## Customer Support

To take advantage of all the new features, contact your FedEx customer integration consultant or contact the FedEx Technical Support Center at 1.877.FDX.Assist 1.877.339.2774 and say “FedEx Ship Manager<sup>®</sup> Server” when prompted. You can also go to the newly redesigned FedEx Developer Resource Center, [fedex.com/us/developer](http://fedex.com/us/developer) for interactive self-help tools, software information, documentation and Alert Notification System registration in order to receive email updates.

## Summary of Features

FedEx Ship Manager Server version 13.0.1 contains the following FedEx® feature and service enhancements:

### Global Expansion of FedEx Domestic Services

You can now ship domestically in more countries thanks to the ongoing global expansion of FedEx domestic services.

### FedEx International Shipping Enhancements

- FedEx International First® offers early morning delivery of time-sensitive shipments to the US and major countries worldwide. For a complete list of countries where FedEx International First is available, go to [fedex.com](http://fedex.com).
- With FedEx® Global Returns, you can link your outbound and return shipment or create a standalone return shipment within FedEx Ship Manager Server v 13.0.1. This functionality is available across and within the following regions: Asia Pacific, Europe, Middle East, Africa, Latin America, Canada and the US. For more information, go to [fedex.com/us/global-returns](http://fedex.com/us/global-returns).
- To comply with customs regulations and prevent the delay of shipments, the country code for the Netherlands Antilles has been expanded from one single country code of "AN" to the following country codes:
  - Curacao (CW)
  - Saint Martin, French Control (MF)
  - Caribbean Netherlands (BQ)
  - Bonaire (BQ)
  - Saba (BQ)
  - Sint Eustatius (BQ)
  - Sint Maarten, Dutch Control (SX)
- Eliminate unnecessary manual processes and shipping interruptions created by incorrect paperwork with the automation of the NAFTA Status Roles on the Commercial Invoice/ Universal Commercial Invoice. This feature affects shipments from the US (including Puerto Rico) to Canada, Canada to US, and Mexico to US or Canada.

## Additional Features and Services

Automate tasks to save you time and allow you to customize your shipping experience with:

- An enterprise PDF formatted Bill of Lading that updates real-time as changes occur.
- Customizable shipping label options to support the new barcode types as well as larger thermal label print stock (8" and 9").
- The capture of additional information for certain Class 1 Dangerous Goods commodities (explosives) to be uploaded and printed on the Shipper's Declaration of Dangerous Goods Form.
- The Close By Reference Field feature that allows shipments to be confirmed, picked up and processed prior to the end of day close.
- Expanded FedEx Express® international Saturday delivery options.
- The new FedEx 1D barcode label that provides additional package level information while improving the label layout and barcode legibility. The 1D barcode will be the only label supported by FedEx Express shipping services. For more information, go to [fedex.com/barcodeupdates](http://fedex.com/barcodeupdates).

See the FedEx Ship Manager Server What's New for additional service features and enhancements details.

## New Resources

Go to [fedex.com/server](http://fedex.com/server) to learn more about FedEx Ship Manager Server and how integration with your existing business systems can make shipping around the world faster and easier. This new business site will provide you with online developer resources along with feature and service information.
