FedEx Ship Manager® Server (FSMS) 2601.01 release notes

The new FSMS 26.01.01 updated version is available for implementation, featuring enhancements and fixes.

New features

- **International Non-standard Shipment (NSS) demand surcharge updates**

  Updated International Non-standard Shipment (NSS) demand surcharges to align with the FedEx surcharge changes effective September 21, 2026, including Additional Handling, Oversize, and Unauthorized Charges for applicable non-standard shipments. Refer to the FedEx Demand Surcharge documentation for current rates and details.

  - FedEx: demand surcharge for U.S. international services
  - FedEx demand surcharges

- **Policy grid weight threshold updates**

  Updated shipping rules for Germany (DE) and the Netherlands (NL) to support revised weight-based requirements. Labels are automatically generated with the appropriate shipment indicator based on the shipment's eligibility and weight.

- **EIN/VAT mask**

  Enhanced data privacy on Air Waybills – Updated Air Waybills to mask EIN, VAT, and Tax ID numbers, helping protect sensitive information by preventing these values from being displayed on printed shipping documents.

Update

If you are currently using 26.01.00, no action is required. The 26.01.01 update will be automatically delivered to your systems within 10-15 days. **Versions other than 26.01.00 are not supported.**
